TAX COMMISSIONER FRISCH GETS OUT STATEMENT

GROWTH OF CITY IS HEALTHY

And Increased Valuation of Property May Possibly Induce Council to Decrease Tax Rate.

Tax Commissioner Joseph J. Frisch has just completed the annual tax list of the various assessments made this year, which shows that the increase over last year's assessments amounts to \$830,579.

The increased valuation may result in a decrease of the tax rate.

The table in detail is as follows:

Recapitulation of Personal Property.	
Description.	No. Amount.
Horses of all ages	1306 \$ 99,840
Meat cattle, all ages	445 11,039
Mules and asses	14 1,525
Wagons, carriages and sleighs	1,499 63,910
Gold watches	83 5,260
Organs & melodions	5 100
Bank stock, total of shares	1,073,953
Merchants and manufacturing stock	2,127,701
Money, notes, etc.	1,572,246
Vessels	108,845
Automobiles	64 52,000
All other personal property	438,573

Total \$5,667,915

Land and Investments
Exclusive of buildings \$5,662,645

Total assessments to land and improvements \$13,248,132
Grand Total for 1906 \$13,248,132

Real estate \$13,248,132
Personal property 5,145,376
Quasi-public and mixed property 640,000

Total \$18,820,469
Quasi-public property includes the La Crosse Gas and Electric, the Central Electric and the Wisconsin Light and Power company's properties.

Grand Total for 1907.
Real estate \$13,248,132
Personal property 5,667,915
Quasi-personal and mixed property 740,000

Total for 1907 \$19,651,048
Total for 1906 18,820,469

Increase over 1906.. \$ 830,579
The number of watches in La Crosse, where there are so many railroad men with valuable watches, seem low, but the fact is that most of the railroad men do not have gold watches, but own high priced movements in strong cheap cases. A man's watch cannot be assessed unless it is valued over \$50.

Organs and melodions also include pianos. They cannot be assessed unless they are worth together with the household goods over \$250.

All other personal property designates household goods of various kinds, jewels, etc.

WOMEN PULL HAIR IN CARNIVAL STREET

Considerable amusement was given a number of spectators outside of the carnival shows last evening when Miss Mary Pederson, 716 St. James street, and Mrs. John Murphy, 912 St. James street, indulged in a hair-pulling contest.

The two had a few words and Mrs. Murphy is alleged to have slapped Miss Pederson in the face and also pulled her hair.

Miss Pederson swore out a warrant for Mrs. Murphy's arrest and it was served at 2:30 this afternoon. The case is being tried in Judge Brindley's court.

CRANK TALKS OF DYNAMITING PRES.

OYSTER BAY, N. Y., Sept. 19.—Conductor G. E. Briggs, who was in charge of the train that removed Orlando Toland the crank who visited the president's home at Oyster Bay, last night, told some of the things that Toland had talked about during the trip to Long Island City. Briggs says that the crank talked about dynamite and how easy it is to set it off. He also, says Briggs, was familiar with the details of the president's western trip, knew just when he was to leave Oyster Bay, and just when he would be in various towns during the trip.

EXCURSION GOES TO PRESTON TOMORROW

SPECIAL TRAIN LEAVES AT 7:30 PROMPTLY

BIG DELEGATION EXPECTED

Secretary Bentley Confident That La Crosse Will Turn Out a Large Crowd to Fillmore Fair

At 7:30 tomorrow morning the special excursion train will leave the Milwaukee depot, bearing the special excursion to the Preston fair. It is expected by Secretary Bentley of the Board of Trade that a big crowd will attend.

\$1,050 Speed Program.

The races will be one of the best features of the fair this year. More than \$1,050 is up in purses and a large string of good horses is assured.

Following is the speed program for Thursday and Friday:

Thursday, September 19.

\$200 for 2:30 trotters.

\$200 for 2:20 pacers.

Friday, September 20.

\$300 free for all trotters.

\$250 free for all pacers.

\$100 for runners, half-mile and repeat.

Large Exhibit of Stock.
Indications point to an unprecedented exhibition of live stock of all kinds. Breeders of fine horses of all breeds, also of cattle, sheep and swine have assured the management of their intention and plans for being present with their stock.

Floral Hall Filled.
The superintendents of the various exhibits for the floral hall have the assurance also that their department will be taxed to the utmost and expect a better exhibit in all the branches than in former years.

Other Attractions.
Besides the races and exhibits of fine stock, big "punks" and the like there will be other attractions galore.

STR. CAR DIRECTORS DIDN'T UNDERSTAND ABOUT THE MEETING

Commenting on the assertion made last night in an interview in The Tribune, in which employees of the Street Car company declared that a meeting of the grievance committee and the company officials was arranged for yesterday afternoon and that the officials failed to "show up," President B. E. Edwards said today that there had undoubtedly been a misunderstanding. He said:

"A meeting was suggested by some of the men for yesterday afternoon, the idea being that there would be no conference until that time." The street car directors, however, a few moments later concluded to hold the conference right there. This was done, and we understood that this took the place of the Wednesday meeting. Evidently the men did not understand it as we did, and the company was not represented. When I learned that the meeting was on, however, I tried to get the directors together, but they were not to be reached in time for a meeting that day."

It is believed that the clearing up of this misunderstanding will do much to eliminate any hostile feeling that the incident engendered.

ONLY ONE HALF HOUR TO ARREST ROBBERS

MILWAUKEE, Wis., Sept. 19.—Frank Frisch, George Glisch and Edward Kinsella, alleged amateur highwaymen, came to grief a half hour after they had, according to the police, completed their first job, at 10:30 last night.

The are charged with holding up Alex Reitter, taking his watch, and a pocketbook containing two one-dollar bills, four pennies and a pocket piece. Within half an hour they were in jail at the Central police station.

KOREANS GATHER TO BESIEGE SEOUL

TOKIO, Sept. 19.—Insurgents are gathering about Seoul and the city is beleaguered, according to the press dispatches here. The object is to wrest Korea from the control of the Japanese. Officials of the Japanese government there have been assassinated by marauding parties of rebels.

TRIBUNE BOYS TO SEE GRAND SHOWS AT THE CARNIVAL

MEET AT 7 O'CLOCK FRIDAY AT THE TRIBUNE OFFICE

SEE CYCLONE AND SALOME

Headed by Brass Band They Will March as Guests of Carnival Managers.

An army of boys—a very large army, because it is The Tribune's army of boys—will see two of the greatest shows in the North side carnival Friday evening.

The boys are not going to "butt in," nor are they going to hypothesize their valuables to get in. They are to be the guests of no less persons than Manager E. F. Ericson of the shows in question, and Manager Kline, of the carnival.

"Salome," the grandest of dancers, the most artistic, agile, supple girl in the world, who radiates colors, whose splendid tints sweep from royal purple to crimson, to lavender, to—O! so many colors, each one prettier than the others—in a whirling sheen of beauty and grace! They are going to see Salome.

And then they are going to see the "Kansas Cyclone." Talk about newsboys having a blow-out! Those Kansas cyclones are blow-outs for your life. The boys have all read about cyclones in their physical geographies, and those who have not are going to ask their teachers all about it, so they will understand. Definition alone, however, isn't enough. To understand cyclones one must see cyclones, and our boys are going to see one. It's terrific. Hot area with rising currents surrounded by low pressure belt, wild winds rushing to a partially vacated center, conflict of opposing currents like the emotions of an old maid with two lovers, chaos, allemande right, rotation, condensation—

Bang! They're off! Screaming winds twisting about a funnel-shaped cloud with crash of lightning and roar of thunder, like forty thousand freight trains in a big round house, all dashing off through space, smashing down forests, hurling great buildings about in kindling, tossing cattle and horses and people across forty-acre lots!

That's the best the reporter can do, but the boys will see it. They meet at The Tribune office at 7 o'clock tomorrow (Friday) evening, and take a car to the grounds. At the grounds they will be met by Managers Ericson and Kline, and by Kreutz's band, following which they will march—"Column of fo's break from the right and march 't' the left! Compy tench-en! Right 'forward fo's right, Ma'ch!" All the same army you know—they will march like that to the greatest shows in the greatest carnival ever held in Greater La Crosse.

And the North side Tribune boys must remember that it is up to them to be Johnny on the spot when Capt. Stanton gives the order at the North side Tribune office, to "fall in" and prepare to meet the division of the army that will be moving north under the command of Capt. Muenster. Fall out!

SEVERE STORM SWEEPS VICINITY

A severe storm swept the territory north of this city last night, and while there was no serious damage here, a 32 mile gale damaged some of the trees.

The Chicago, Burlington and Quincy tracks at Bay City, 45 miles this side of Minneapolis, are entirely washed out for a distance of nearly 300 feet, and in many places in the vicinity of Bay City the tracks are entirely submerged. The north-bound train arrived in La Crosse on time this morning and left for Minneapolis, but was held north of here, as the damage has not been repaired yet. The train from Minneapolis due here at 11:50 was transferred at St. Croix junction to the Milwaukee and followed their tracks to Luverne, where they were again transferred to their own tracks and arrived at La Crosse three hours late.

Milwaukee trains from the north due this morning have not yet arrived, so serious are the washouts. Little information concerning the situation is given out at the local offices.

CONAN DOYLE WEDDED IN LONDON

LONDON, Sept. 19.—Sir Arthur Conan Doyle and Miss Jean Leckie were married yesterday afternoon in St. Margaret's church, Westminster. Great precautions had been taken to keep secret the church in which the marriage was to take place, in order to prevent the presence of a crowd. Miss Leckie is not prominent in any way and has always lived with her parents at Blackheath. Sir Arthur, who is 48 years old, has not been married before.

WANT FIGURES ON LITTLE KNOWN END

INTERSTATE COMMERCE AFTER NEW BRANCH

SWITCHING AND TERMINALS

Department of Railroad About Which Little Is Known Is to Be Investigated.

Washington Bureau of The La Crosse Tribune.

WASHINGTON, D. C., Sept. 19. (By J. C. Weniver.)

One of the most important inquiries that has yet been planned by the accounting division of the interstate commerce commission has been begun by the sending out of blanks for reports on all switching properties, terminal properties and the like in the United States. When the reports are received and filed, it is expected they will throw light on a phase of railroad about which comparatively little is definitely known.

The accounting division of the commission, of which Professor H. C. Adams is the head, was described the other day by an official of the commission as a perpetual interrogation point. It has started various important lines of inquiry, dealing directly with proper methods of railroad accounting or having an indirect relationship to it. As is the case with the other inquiries set afoot by Professor Adams, the one into switching properties and terminal properties is calculated to go to the roots of the subject.

Full Information Sought

It is supposed to obtain for the commission full information as to the location of the properties of all switching and terminal companies, all private tracks and industrial tracks. The tracks so used constitute the fringe of the railway mileage of the country. It is the intention to get a complete list of them, classify them, ascertain the nature of

WELL KNOWN YOUNG MAN SUCCUMBS

John Arenz, clerk at the J. S. Arenz & Company shoe store, died last evening at the home of his parents, Mr. and Mrs. Christ Arenz, 811 Adams street, after an illness of five weeks with typhoid fever.

Mr. Arenz was 27 years old and was born in La Crosse, living with his parents on Adams street until about four years ago, when he went to California, locating at Chico. There he entered the meat business and remained until about a year ago, when he returned to La Crosse and entered the employ of the Arenz Shoe company, of which his father is a partner. He was married last Christmas to Miss Perdue of Chico, Cal.

Deceased was taken sick about five weeks ago when he complained of not feeling well, but as he was a strong and robust young man he thought nothing of it, until his condition became serious and typhoid fever was pronounced. His father-in-law, Dr. Perdue, of Chico, Cal., came to La Crosse and has been attending Mr. Arenz for the past two weeks, but his condition became suddenly worse and he died last evening.

BONAPARTE PROVES TO BE NEW PUZZLE

"WAS HE PUSHED, OR DID HE JUMP?"

DISSATISFACTION IS COMING

And if a Final Break Ends His Administration Some Interesting Developments May Come

WASHINGTON, D. C., Sept. 19.—

If the hints of close friends of the administration are to be believed, Attorney General Bonaparte is about to force a revival of the time-worn, but oft-pertinent inquiry: Did he fall or was he pushed?

If he shortly retires from the president's official family, as it is said upon good authority that he will, the ensuing discussion promises to be of interest equal to those which sought to determine how old was Ann, who struck Billy Patterson and whether Vice President Fairbanks served a cocktail, knockout drops or only a new vintage of Indiana butter-milk.

Ordinarily the suave attorney general could be depended upon to pause and deeply consider whether even the widespread criticisms of his brief administration warranted the precipitation of such a controversy upon an unprepared public. But the heat of the chase is in his blood. The fires of conquest are consuming his soul. "Poor indeed is the day" upon which he has not "flushed" a covey of rich lawbreakers or "unearthed a few trust octopi" if one is permitted to snatch a few characteristic expressions from his bewildered

OIL TRUST DEFEATS THE LAWS OPENLY ADMITS WITNESSES

TREASURER OF NEW JERSEY CO. IS ON THE STAND

IDENTITY OF ALL IS SHOWN

Subsidiary Companies Paid Dividends to Holders of Oil Trust Stocks

In the action looking to the dissolution of Standard Oil today Wesley Telford, treasurer of the New Jersey corporation, occupied the stand and outlined his connection with the oil trust, beginning in 1882.

The vital point made by Attorney Kellogg today was based on the admission of Telford that during the eight years of liquidation following the dissolution of the trust in 1892 the subsidiary companies paid the "trust certificate holders" dividends from the earnings of the supposedly independent companies. The point made is that during all these years the oil company existed as a trust in open defiance of the law.

Mr. Kellogg made the charge in court that the Texicana company, of Texas, is a subsidiary company of the Oil trust, although claiming independence, and that it was owned and operated by the trust in place of the Waters-Pierce company, which was deprived of its charter in Texas. Telford testified that he had heard that Payne and Berger, Standard stockholders, owned it, but he could not say that Standard Oil, as a company, owned any interest.

At 2 o'clock this afternoon the case was adjourned until tomorrow. John G. Milburn served notice on the government in the closing hour of yesterday's session of the Standard Oil investigation that the trust will object to the introduction of any testimony bearing upon acts committed prior to July 2, 1890, the date that the Sherman anti-trust law went into effect.

This is the first hint that has been given of the line of defense that will be followed by the trust in its efforts to escape destruction at the hands of the federal authorities. It came after another extraordinary revelation as to the profits that have been reaped by the New Jersey Standard and its subsidiary concerns—profits in some instances that reached the amazing height of 1,000 per cent, as in the case of the Standard Oil company of Indiana, recently fined so heavily by Judge Landis, which, with a capital of \$1,000,000, last year realized profits of \$10,500,000, and declared dividends aggregating \$4,500,000.

These facts were adduced from a statement submitted by Acting Comptroller Fay of the New Jersey Standard.

Problems of High Finance.
Aside from these developments, the two sessions produced two new problems in high finance which await solution. For instance:

Why did the Standard Oil company of New Jersey through C. M. Pratt, trustee, in March, 1904, turn over to a Mr. Van Buren stock of the Waters-Pierce Oil company of Texas to the value of 1,000,000, permit Van Buren to hold the stock two years, and then take it back again?

This was the problem developed at the hearing in the investigation looking to a dissolution of the oil trust. Partial light is thrown upon the transaction by reason of the known fact that the Waters-Pierce concern had been driven out of Texas as an illegal corporation and that Mr. Van Buren, after all, is a son-in-law of John D. Archbold, so that the stock was never far away from headquarters. But no official of the Standard examined today had any explanation to make of the affair.

Another Puzzling Question.
This important problem was also thrust forward by Inquisitor Kellogg:

What is the significance of the fact that in 1904 the Standard Oil company of New York, with net profits for the year of \$7,751,160, paid to the Standard Oil company of New Jersey, the parent organization, a dividend of \$32,998,430; and that in the same year the assets of the New York Standard were reduced from \$40,425,900 to \$15,179,766, the accounts receivable of the New Jersey Standard increased to the amount of about \$35,000,000 and the liabilities of the New York Standard increased proportionately to the same amount?

If the New York Standard had borrowed about \$25,000,000 that year from the New Jersey Standard to pay the latter concern the \$34,000,000 dividend, the mystery would be cleared up. But did it? Fay, acting comptroller of the New Jersey Standard, was not able to let in any light on this maze of figures. The best he could do was to promise to look it up.

FAIR OFFICIALS AND THE CARNIVAL PEOPLE AT PEACE

MEETING HELD LAST NIGHT TO CLEAR MISUNDERSTANDING

MR. KLINE GIVES GLAD HAND

Fair Officials Laud Carnival and Manager Says the World's at Peace.

A meeting was held last night in North La Crosse at which the committee of business men having charge of the carnival, Manager H. A. Kline of the carnival, and E. M. Wing and C. S. Van Auker, respectively treasurer and secretary of the La Crosse Interstate Fair association, took part.

The object of the meeting was to talk over the conspiracy of circumstances that has resulted in an impression that the fair people are trying to injure the carnival. The meeting resolved itself into an informal peace commission, in which some things that may have existed were explained and others that did not exist were exposed as bogey men.

"Everything is lovely. We met Messrs. Wing and Van Auker, and they are fine fellows. We had a pleasant chat and all misunderstandings are cleared away. There is not left a single pebble to block the complete restoration of harmony."

The above statement by Manager Kline seems to dispose of the whole controversy, as the trouble largely dealt with his experiences in La Crosse.

"We found Mr. Kline a showman of the broad type, and a pleasant gentleman. The carnival shows are the best that have ever appeared here. There were some natural misunderstandings that I think have been cleared up," said Mr. Wing this morning.

The Inter-State Fair association has issued the following official statement regarding the carnival incident:

Fair Directors Statement.

The following statement was issued today by the fair association: "The directors of the La Crosse Interstate fair wish to publicly deny that they have officially or as individuals done anything to harass or injure the North side carnival now in progress.

"On the contrary they have the kindest of feeling toward the North side and its carnival, which is the best ever in La Crosse and well worth attending, and they only regret that people can be found to believe the silly tales started by irresponsible individuals without the slightest foundation in fact.

"The Inter-State fair is conducted by the board of directors for the benefit of all of La Crosse, not one part of it, and to believe that these men have prevented the Carnival company hiring drays, or sent any treasury agents to collect the state license, is just about as sensible as to believe they caused the rain Tuesday night.

"We urge South side people to attend the carnival this week and we hope every one on the North side will not only attend the fair, but believe, in the meantime, that the directors of the fair have just a little common sense.

"La Crosse Inter-State Fair Association. T. H. Spence, president; Geo. H. Ray, vice-president; C. S. Van Auker, secretary; C. M. Wing, treasurer."

TEAM SHOULD HAVE BEEN SUSPENDED

Wausau cannot forget the Monday
riot and lauds Freeport as lucky.
The Wausau Herald says:
"Freeport is certainly a lucky
town. After a season's abuse of fel-
low members of the State league
terminating in an open row where
players and later the umpire and
even the president of the league
were injured to considerable extent,
the only punishment it gets is to
have a forfeited game thrown out
and one of its players suspended.
President Moll ought to have sus-
pended half the club or have openly
given the whole series of five games
to La Crosse, and he ought to have
informed the Freeporters that he
did it purposely to prevent their get-
ting the pennant, as a punishment.
He ought to have told them they de-
served suspension from ability to en-
ter professional baseball for a year
and he ought to have told them
they could expect no consideration
from the State league. It would not
have been pleasant for Freeport. We
don't presume it is very pleasant for
a common thing to be punished for
holding up and assaulting a man. It
would have a salutary effect in the
league and would be a means of
discipline that would never be for-
gotten. Freeport deserves to lose the
pennant for two reasons. They are:
The team has never played fair and
square on its own grounds, and it
has not played square as to keeping
within the salary limit; secondly, it
has not played as good ball as Wau-
sau in the last half or three-fourths
of the season. As the Oshkosh
Northwestern says, 'It is a shameful
way to close what has otherwise
been a clean, open, many season of
baseball, the best Wisconsin has ever
seen and one that concludes a pleas-
ant summer with a bitter taste.'"

OSHKOSH HIGH'S HARD SCHEDULE

OSHKOSH, Wis., Sept. 19.—Osh-
kosh has the hardest football sched-
ule this year ever played by a high
school team in the state. Besides
Ripon college and Oshkosh normal,
seven of the best high school teams
in the state will be met. In spite of
the heavy schedule the local school is
expected to be a strong candidate for
the state championship this year.
The schedule:

Sept. 28—Ripon college at Osh-
kosh.
Oct. 5—Oshkosh Normal at Osh-
kosh.
Oct. 12—Marquette at Marinette.
Oct. 19—Stevens Point at Osh-

WARHOP BIG LOSS; BUSH "FINE" UMP

Anent the tie game Tuesday which
Bush admits he stole from the
Champs, the Freeport papers say:
"The suspension of Warhop leaves
Freeport with a pitching staff which
has sore arms.
"Moll could not have given Free-
port a harder rap than to take War-
hop out of the game.
"Bush was 'fine' on balls and
strikes."

WAUSAU TAKES ANOTHER CONTEST

DEFEAT GREEN BAY IN ONE OF
DOUBLE-HEADER

SECOND GAME ENDS A TIE

Final Game of Freeport Series Pos-
tponed Owing to Wet Grounds
Yesterday Afternoon.

Games Yesterday.			
Freeport-La Crosse, wet grounds.			
Wausau 4-0, Green Bay 0-0.			
Eau Claire-Madison, wet grounds.			
Oshkosh-Fond du Lac, ral.			

Games Today.			
La Crosse at Eau Claire.			
Oshkosh at Green Bay.			
Wausau at Fond du Lac.			
Madison at Freeport; game pos- tponed until Friday, which is an open date in the schedule.			

The last game of the Freeport series
was called off yesterday on ac-
count of the wet grounds and La
Crosse will not have a chance at the
Pretzels again this year, unless its a
postponed game.

La Crosse will go to Eau Claire,
where the final series will be played,
starting today. Capt. Bond will join
the team at Eau Claire and will play
the remaining games of the series.
Madison goes to Freeport Friday
where the first game will be played,
an agreement having been made with
the Madison and Freeport teams to
postpone the game for today, which
will be played tomorrow, an open
date for all the teams in the league.

President George Wilbur of the
Beloit Baseball association was in
Madison in consultation with base-
ball officials on the prospects of Be-
loft again entering the Wisconsin
league. He stated that the Beloit
fans were eager for an opportunity
to get into big company and he be-
lieved they could make good. He
also stated that Rockford was an-
xious to get into the Wisconsin State
league and it may be that one of the
teams will be taken in the place of
Freeport, if they decide to withdraw
from the league, as is possible after
their conduct in the La Crosse series
Monday and Tuesday. Beloit was
in the league during the first year, but
dropped out last year because of the
poor support given the team. But
the past year more interest has
been taken in the national game and
they promise to be strong contenders
for the pennant if again given a
chance.

Wausau 4-0, Green Bay 0-0.
GREEN BAY, Wis., Sept. 19.—
Green Bay and Wausau battled
through ten innings in the second
game yesterday afternoon without
scoring. The first game went to
Wausau by a score of 4 to 0. Mil-
ler has pitched nineteen innings
against Wausau in the present series
without a run being scored and with-
out six hits made by the lumber-
jacks. The score:

First game.		R.H.E.
Wausau	0000101011	4 8 2
Green Bay	0000000000	0 7 1
Batteries—Miller, Pierce; Parish and Ott.		
Second game.		R.H.E.
Wausau	0000000000	0 2 0
G. Bay	0000000000	0 4 0
Batteries—Miller, Nagle; Pierce; Miller and Ott.		

Oshkosh Season Ends.
OSHKOSH, Wis., Sept. 19.—The
double-header planned for today be-
tween the Indians and Fond du Lac
was not played on account of wet
grounds, due to Tuesday's rain
storm. There will be no more league
games on the home grounds,
Oshkosh going to Green Bay today
for the final series of the season.

Wet Grounds at Madison.
MADISON, Wis., Sept. 19.—No
more state league baseball games
will be played at Madison this sea-
son. A double-header was scheduled
here with Eau Claire yesterday, but
on account of the heavy rain this
morning the grounds could not be
used. Eau Claire had to go home to
play games scheduled with La Crosse
Madison closes the season with a
series at Freeport on Friday, Saturday
and Sunday.

GEERS GELDING AGAIN DEFEATED

"SONOMA GIRL" WINS OVER
"HIGHBALL"

MARGARET O. TAKES SECOND

Third Heat Is Easily Won by Dark
Horse With Geers' Highball in
the Ruck

COLUMBUS, O., Sept. 19.—Sono-
ma Girl, tired by the heavy footing on
the Columbus Grand circuit track,
finished a neck ahead of Highball
in the second heat of the Hester-Co-
lumbus stake, and thereby clinched
the victory for which she made a
sensational start on Tuesday.
The crack trotters set a furious
clip to the half, considering the con-
dition of the course Sonoma Girl was
a length ahead there in 1:01 1/2.
Highball rallied desperately fifty
yards from the finish, but was near-
er out than McHenry's entry.

Margaret O., after the first half
of the third and final mile had been
done by Sonoma Girl in 1:02 3/4,
showed good finishing qualities and
easily won the heat. Highball was
so tired that Jack Leyburn beat him
out of third place. Sonoma Girl's
share of the purse was \$4,250.
Lillian R. had no trouble in win-
ning the 2:09 trot. Close finishes
ruled in the 2:09 pace, five horses
being together when Shermerhorn
won the third heat. Ward M. was
the first choice in a lot of sixteen
2:17 trotters that made their first
start as the last heat of a dreary af-
ternoon. He won handily. Kentucky
Todd and General Watts start today
in the card's feature—the trotting
division of the Kentucky Stock Farm
Futurity. The summary:

A CONFLICT IMPENDS

The possibility that the Western Union Telegraph company may fight the state ad valorem tax law, is not alarming. Corporations have been fighting, and evading, laws ever since the official appearance of the "era of concentration."

The trouble is, the ad valorem law makes the telegraph companies pay taxes on all it owns, like the "common people." This is not so satisfactory as paying taxes on "mileage," or "poleage," or anything that can be "estimated," and at the same time collecting dividends on the water, blue sky and the future. It has made the telegraph companies of this state pay in taxes nearly double what they paid under the old system.

And so, because the prerogatives of monopoly are valuable and must not be relinquished without a struggle, a conflict is impending.

SLEEP.

Joking Abraham Lincoln about his "shape," Douglass once asked him what he thought the proper length for a man's legs was. Lincoln replied, "Long enough to reach from his body to the ground."

There is something of this logic in a discussion of "sleeping"—blessed be the word—which appears in the American Magazine. In it is the excuse of the man who sleeps ten hours and the explanation of the man who sleeps four. In fact, it has a kind inference for everybody but those who do not sleep at all. It is enjoyable, possibly profitable, reading as a night cap. Try it:

"How much sleep shall I have in the twenty-four?" This can be answered unhesitatingly in five words, "As much as you can." As the period of sleep represents the time necessary to restore the oxygen balance of the tissues, to recharge the battery, then obviously it must last until that process has been completed, as attested by the familiar sense of "restedness" and refreshment. "Go to sleep when you're tired, get up when you wake feeling rested," contains the philosophy of the whole problem.

Obviously no hard and fast rule as to the number of hours required can be laid down. Just as individuals differ in the color of their hair and eyes, the vigor of their appetites, their tendency to be fat or lean, so they differ in the rapidity of their recuperation during sleep. As has been already mentioned, a few recuperate with such rapidity that as little as four hours sleep suffices them.

To mention a few notable in-

MEN OF NOTE

John Kean

Hon. John Kean, United States senator from New Jersey, was born in Ursino, Union county, N. J., on December 4th, 1852. Mr. Kean graduated from the College of Law school of New York and was admitted to the practice of law in his own state in 1877. He made a great success as a practitioner and also became heavily interested in commercial institutions in his own state. He was elected president of the National State bank of New Jersey at Elizabeth, N. J., and still holds this position. He is also vice-president of the Manhattan Trust company, and is interested in many other corporations. He was a member of congress when elected to the senate in 1899.

stances, Frederick the Great, Napoleon, and his conqueror the Duke of Wellington, John Wesley, and in recent years, Edison, the inventor, were able to refresh themselves completely within this time. On the other hand, anaemic and nervous individuals may recuperate with such extreme slowness that they require ten, twelve, or thirteen hours of sleep properly to redress the balance.

At a rough working average it may be stated that the majority of vigorous adults require an average of about nine hours. Women require from half an hour to an hour more than men of their age. Any attempt to shorten this necessary period, whatever it may be, which can readily be ascertained by each individual for himself by a brief period of intelligent experimentation, is not only irrational but suicidal.

As a matter of fact, the average amount of sleep taken by most individuals is in the neighborhood of nine hours.

THE WRONG THAT IS DONE.

One of the most trying features about the program of the federal government for collecting bass fry in the Mississippi to be planted in other waters, is that it is stealing coppers. It is gleaming the last of property of which the Mississippi valley people have little and want much. The bass of today are so scarce, comparatively, that the most ardent fishermen finds himself pulling more on the oar than on the rod. It does seem a shame when we have a few, a very few, of these game old fish left, that they should be taken away from their native waters, and from the people who, by settling in this valley, have earned the right to them. Nature endowed the Mississippi Valley with certain advantages, among them the bass. Induced by these advantages, people settled here, and in doing so they became possessed of vested rights in the attractions by which Nature allured them. It is as unjust for the government to take away our bass and give them to others in other places, as it would be were the government to take away the river itself.

TWO OF A KIND.

(Lippincott's Magazine.)

A well known clubman in New York likes nothing better than to hunt "big game" in British Columbia. During his last expedition to that region he was in camp with a friend from Minnesota. Towards morning, says the New Yorker, he awoke shivering with cold. The fire was low. His companion was fast asleep.

It isn't nice to get out of a warm blanket to roll frosty logs to the fire, so the wily New Yorker gave his friend a kick and then pretended to be asleep. There was no response, and presently the man from New York tried another kick.

At this the westerner broke into a laugh.

"I did the same thing to you twenty minutes ago," he explained, "and that's how you came to be awake."

Then, of course, both turned out to build a fire.

Fortunate is he who can have his choice of the professions, but even the day laborers hasten to pick.

If having an allowance every month spares a woman great humiliation, what is the matter with the men also having one?

HOW TO AVOID APPENDICITIS

Most victims of appendicitis are those who are habitually constipated. Orino Laxative Fruit Syrup cures chronic constipation by stimulating the liver and bowels, and restores the natural action of the bowels. Orino Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. Refuse substitutes.

FASHION HINTS

(By May Manton.)

5780 House Jacket, 32 to 40 bust.

HOUSE JACKET 5780.

To be made with V-shaped or high neck, with or without sailor collar, with elbow or long sleeves.

The tasteful breakfast jacket is one of the most satisfactory garments any woman can possess. It means comfort as well as daintiness during the morning hours, it affords relief from the high collar and cuffs of the regulation shirt waist and, if well selected, is apt to be extremely becoming. This one can be made as illustrated, with the V-shaped neck and elbow sleeves, or high with a sailor collar and long sleeves, so that it becomes adapted both to present needs and to the future colder days. As illustrated the material is India linen with the yoke of tucking and trimming of embroidery, but there are a great many similar washable materials that are liked by women who prefer such at all seasons of the year while there are also innumerable light weight flannels, albatross, cashmere and the like, that also are well adapted to the design. For the present and for many weeks to come pretty dainties, lawns, wash silks and the like, are perhaps to be preferred to everything else, but the time of cooler weather is approaching and when it shall have arrived woofs of taste and any pretty heavy lace or banding can be substituted, or narrow banding can be used as shown in the small view.

The jacket is made with the full fronts which are attached to the pointed yoke, and a plain back. It can be gathered at the waist line and finished with a belt or can be adjusted by means of a belt of ribbon as in this instance. The sleeves are of moderate fullness. Those of elbow length are finished with straight bands over which the embroidery is arranged while the long ones are gathered into deeper, shaped cuffs. The quantity of material required for the medium size is 3 yards 27 or 32 or 2 yards 44 inches wide, with 3/4 yards of tucking and 1 1/4 yards of embroidery to make as illustrated; 3 3/4 yards 27 or 32 or 2 1/4 yards 44 inches wide to make with sailor collar and long sleeves.

The pattern 5780 is cut in sizes for a 32, 34, 36, 38 and 40 inch bust measure and will be mailed to any address by the Fashion Department. (If in haste send an additional two cent stamp for letter postage which insures more prompt delivery.)

AMERICAN EXPERT SALESMEN.

(Engineering Magazine.)

In the matter of salesmen abroad, we must have men who not only speak the language but who are also thoroughly conversant with the customs and idiosyncrasies of the people with whom they deal. The South American, in his buying as in almost everything else, is a most deliberate person, as well as a sensitive one. A salesman who will call, smoke a cigarette, talk inconspicuously about the weather, the theater, and the races, and answer questions—should any happen to be asked—rather than make assertions about his goods, will outsell, five to one, the liveliest hustler that ever opened up a sample case. This is a thing so contrary to the instinct of the American salesman that, to date, in his wanton disregard of it, he has constantly played into the hands of his more experienced rivals. "Your Yankee drummers," says the latter politely, "are the greatest salesmen in the world—in America."

Banks and long credits have been urged so frequently, and their necessity is so obvious, that there is nothing new to be said on the subject. As for subsidized steamship lines, the strongest argument in their favor is found in the fact that Kaiser Wilhelm credits them with being the principal factor in the swift closing in of Germany upon England in her export trade.

"LOOK AT THE UGLY MEN!"

(From Appleton's Magazine.)

Senator Charles W. Fulton of Oregon was a "stumper" whose methods were as effective as Dolliver's. He would begin something like this: "Well, I must say I'm disappointed at this crowd! Look at all the ugly men! Not a good looking man in the whole convention! How does it happen that such a lot of misshapen features on the masculine side have been able to attract so many beautiful female partners?"

"Here I've been a bachelor for forty years; but if I had known you fellows could do as well as you've done I'd never have been a bachelor for fifteen minutes," etc. By this heart to heart method he placed himself on the best of terms with his hearers, and then took a dive into politics. The joke of it all was that his wife was probably sitting in the audience listening to his remarks.

SPOTLIGHTS

"A Country Kid," the newest popular play depicting rural life, is in a lighter vein than most of the rural plays that have achieved popularity and will no doubt be well received everywhere this season. William Zuhn, in the title role, portrays the country kid and keeps the audience in laughter while his efforts are ably supported by a competent company. At La Crosse theater tomorrow, matinee and night.

"Sweetest Girl in Dixie."

At the La Crosse theater, next Saturday, Sept. 21, matinee and night, "The Sweetest Girl in Dixie" will be presented.

This is one of the few really southern plays, and it will no doubt be greeted with a large audience.

Fair Week Amusements.

Maxam & Sight's Comedians will open a week's engagement in the La Crosse theater Sunday, Sept. 22, with a matinee, presenting a 4-act comedy drama, "A Sailor's Lass." A

Pauline Sights, in high class plays, singing and dancing, fair week, at La Crosse Theatre, beginning Sunday, Sept. 22, matinee.

number of pleasing specialties will be introduced by Pauline Sights, Mittie Maxam, Clarence Wan Wright, Vina Mascotte, Earl Ostrander and Jay R. Orcutt. They also carry a good band and orchestra. This is one of the best popular priced attractions in the northwest.

At the Bijou.

Dancing a feature—Plenty of good dancing is to be seen at the Bijou this week and Morgan and McGarry in their novelty singing and dancing act are meeting with great favor. The whole program at the Bijou is splendid and the moving pictures unexcelled.

OF HUMAN INTEREST

The story goes that an American went into an English shop and seeing some "Teddy Bears" said, "Oh, I see you have our 'Teddy Bears,' over here."

"By no means," said the English clerk. "They were here first and some enterprising Yank took them over to the other side."

The one insisted that they were more American and the other that they were first English, but both of them probably know that the "Teddy Bear" originally came from Germany.

I was much interested in reading a while ago about the little German girl that makes the "Bears." She was a little, crippled child of a poor widowed mother and she had to stay home inactive when the other children started away to school. She used to make little chickens and rats and stuff them for her own amusement, then finally the neighboring children got to find out how neatly she did it, and how life-like the work seemed and she began to fill orders for her little friends for Christmas presents. At last her fame spread to neighboring towns and she began to make a little pocket money and still the orders increased and she found she had to have some help to get them all out. Then she branched out and tried rabbits and kittens and elephants. All were successes and she found that her mother's kitchen was no longer large enough so two or three rooms were rented and the work was started in earnest.

From a humble beginning and no thought of what the future would bring forth this little German invalid was gradually attaining a competence. Then lastly came the "bears." The "Teddy" was attached after they reached this country—from the very first they took like wild fire—becoming with their sweet, confiding little faces and soft woolly bodies equally the pet of old and young. A large factory is now running, employing about 50 people and this little German girl has lifted herself and family into affluence. When the fad for "Teddy Bears" dies out, she probably will have another idea on hand, but I wonder if anything will ever again be quite so popular as the dear "Teddy Bears!"

MARY ANN.

The House Hunter—"I like this house well enough, but I don't like the idea of its being next to a police station, with all those staring policemen." The Agent—"Ah, sir, but that is really a great advantage. Think how easy it will be to keep a cook here."

"Hope you weren't riled because I told that capital story of yours, were you, old fellow?" inquired a "funny" society man. "It went down! m-m-m-m-m, didn't it? You don't mind?" "Certainly not," replied the owner of the joke. "I told it myself just before you came in!"

THE TRIBUNE STORY

BAD BEGINNINGS

By BRIAN CAHILL.

Copyrighted 1907 by P. C. Eastment

Eddowes scowled at the clock as he let himself into the office. A freight train on the branch line over which he commuted to town had blocked the tracks and he had been forced to tramp two miles across country to reach the trolley. Arriving after a series of transfers, he found Benton's card on the floor beneath the letter drop with the penciled legend that he was going out of town.

The deal Eddowes had been working on would not hold out until Benton's return, and he gritted his teeth as he thought of all the commission on the transaction would have meant to him.

It would have made up the sum needed to complete the purchase of the little house he wanted to offer Edna Comant as a home, and it might mean a year now before another such brilliant opportunity would offer.

He glanced out of the window through the light, driving rain, at the sodden vista of wet roof tops and smoke stained buildings, and thought how well the weather matched his own feelings. For months he had been working to close the real estate transaction. Benton was to be at the office at 10 to put the final details through, and now he had sailed for Europe and would not be back for several months. It was the final happening of a chain of accidents that had begun with his stubbing his toe as he got out of bed, followed by the loss of his last collar button under the bureau, the burning of half his breakfast by a green servant girl and then the wreck and its attendant discomforts.

He turned from the window with a shudder.

"This is a fine beginning for the week," he said to himself. "If it keeps up this way until Saturday I shall land in the lunatic asylum."

He took his seat before the desk and busied himself with the papers in the Benton matter. Four signatures and the exchange of a check would have made the set complete and would have brought him a commission of \$10,000. Everything had been arranged to expedite matters. Benton had waited half an hour in the hall until he had just time to make the steamer upon which he was to sail.

Eddowes carefully clipped the papers to a file board and caught up his umbrella. There was no chance of any other caller during the lunch hour, and the loss of his breakfast and the tramp across country had put an edge on his appetite.

The streets were filled with the usual hurrying throng, and, raising his umbrella, he fell in with the procession of moist and steaming mortals. The wind had freshened, and the rain was driving in sheets now. At the corner by the trust company building the air currents were unusually strong, and just as he passed the curb a girl ahead made a clutch at her umbrella as it turned inside out, while the torn silk fluttered from the bent ribs. Eddowes covered the dainty hat with his own umbrella and steered her to the protection of the entrance.

"Let it drop in the gutter," he said. "There is no hope of saving any part of it."

"Harry!" gasped the girl. "Where did you come from?"

"From the office," he laughed. "What brings you downtown, Edna?"

"I was to meet father for lunch," she explained. "He was called to an important conference and left word for me to go to lunch alone. I was going home. I am so perfectly miserable. Everything has gone wrong to-day. It has been a chapter of accidents ever since I rose."

"Let's be miserable together," he suggested. "Come and have some lunch, and we'll tell each other our troubles."

He led the way to a little place where the service was excellent and the prices moderate. Here, at a little table in the corner, she detailed her chapter of accidents, while he in turn gave a whimsical account of his own mishaps.

"We are companions in misery," he said, with a laugh. "I really believe that it has done me good to pour my tale of woe into sympathetic ears."

"I know that it has done me good to share my burden," she said, with a look that made Eddowes' heart beat the faster. "I'm sorry about that deal you lost."

"It meant a great deal to me," he said mournfully. "I was going to purchase the Gordon place."

"For investment?" she asked, though she knew well enough she had said once when she had visited his sister how much she would enjoy a place like that for her home.

"An investment in happiness," he said meaningfully. "I suppose that the place will be sold long before I am able to get another deal like this through."

"Is your happiness entirely dependent upon that one place?" she asked.

"Is happiness a matter of real estate?"

"Real estate contributes materially to happiness," he said, with an uneasy laugh. "I should not want to offer an unworthy home to the woman I want to marry."

"Home is what you make it," she re-

QUIPS AND CRANKS AND WANTON WILES

More Than They Wanted.

On his trip homeward by trolley a tired business man was much annoyed by the conduct of three middle-aged ladies who stood near him. They were evidently just returning from a summer tour. All the seats in the car were occupied, but they seemed determined that he should offer one of them his seat.

He screened himself behind his paper and listened to plainly audible remarks about the decline of gallantry in the present age. This grated on his nerves, so he arose, and with a profound bow, addressed the three.

"Will the oldest of you ladies honor me by accepting my place?"

Whereupon they became interested in the advertisements over the windows, and the man triumphantly resumed his seat.—Woman's Home Journal.

Blinking in the tropical sunshine, he looked up dubiously.

"May I ask," he said, "what course you propose to take with me?"

Thereupon with a faint smile the king replied:

"The usual course, my dear sir. You'll follow the fish."

And the sycophantic tribesmen laughed and thumped their war clubs on the hot white sand.

Cured Hay Fever and Summer Cold

A. J. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar in the yellow package, and it quickly cured me. My wife has since used Foley's Honey and Tar with the same success." O. T. Erhart.

OUTLAW DIETZ WINS CAMERON DAM CASE

LUMBER COMPANY PACIFIES GRIM FIGHTER

TERMS ARE NOT MADE PUBLIC

First Payment Made to Brother Last Monday—Logs Held Up Several Years Go to Mill

WINTER, Wis., Sept. 19.—The famous Dietz dam dispute has been settled.

It is stated that an agreement has been reached between the contending parties and that the logs that have long been held up by the intrepid defender of Cameron dam on the Thornapple river, near here, will be moved at once.

This was the statement made as the result of conferences held between W. F. Moses, representing the Weyerhaeuser interests and William Dietz, representing his brother.

Terms Are Not Given Out. Just what the terms of the settlement are has not been made public, but the first payment was made to Dietz on Monday, and the details were arranged satisfactorily to both parties.

From the fact that Dietz has repeatedly shown his firm intention of compelling the company to come to his terms it is presumed that he gets at least very close to what he originally demanded. The recent failure of the company to get the legislature or governor to take a hand in the game against Dietz is believed to have decided the company to yield.

First Trouble in 1904. Public attention was first called to John Dietz and his dam in the spring of 1904, when he put up no trespass signs and forbid men working for the company from coming upon his land.

Some time previous Mr. Dietz had purchased a piece of land from Mrs. Cameron, a widow. The Chippewa Lumber company people had also purchased forty acres supposing that they were getting the land upon which the dam was situated.

In the spring of 1904 Mrs. Cameron moved off the land and Dietz took up his residence in the house near the dam. He discovered, as he maintains, that half of the dam was on his land, and immediately put up "No Trespass" signs and refused to allow the employees of the company to run their logs through the dam.

The company realized the need of hurrying the logs through the dam while the river was high and sent a surveyor out, who found, Dietz claims, that Dietz was right, and the surveyor took the terms of the newcomer to the company.

Dietz asked for legal rate, which was 10 cents per 1,000 for all logs sluiced through the dam. He also wanted pay for 80,000,000 feet which had already gone through. The company would not settle on the terms and tried to buy the land or trade Dietz another eighty acres for it.

Sheriffs Fail to Get Him. Dietz refused to sell and the war began. Innumerable attempts to capture him failed. Three different sheriffs were ordered to get him, but all failed. Large forces of armed men have attempted to get him, but all found the place well fortified and were obliged to give up the attempt. Blood has been shed several times.

MANY STUNG BY MAYORALTY BEE

MILWAUKEE, Wis., Sept. 19.—(Special.)—Mayoralty candidates in Milwaukee are too numerous to mention. There is talk of a citizens ticket now, with Richard B. Watrous, known all over Wisconsin as the secretary of the Citizens' Business League, and publicity man for the late state fair, as the man for the corner office in the big city hall. Clinton G. Price, horseman, assistant city attorney and prominent lodge man, is a big factor in the running. Some think Mayor Becker will not run again. This idea is growing owing to the mayor's declaration to tell about his aspirations. Another republican candidate is F. B. McGovern, district attorney. Former Gov. Peck and ex-Mayor Rose are mentioned on the democratic side. So is William George Bruce, and a host of others. If "Ikey" Karel, county judge, weren't judge, democrats would like to see him run. With this maze in view, the citizens ticket and Watrous movement is working itself into the ring rapidly and easily.

A Humane Appeal.

A humane citizen of Richmond, Ind., Mr. U. D. Williams, 107 West Main St., says: "I appeal to all persons with weak lungs to take Dr. King's New Discovery, the only remedy that has helped me and fully comes up to the proprietor's recommendation." It saves more lives than all other throat and lung remedies put together. Used as a cough and cold cure the world over. Cures asthma, bronchitis, croup, whooping cough, quinsy, hoarseness, and phthisis, stops hemorrhages of the lungs and builds them up. Guaranteed at O. T. Erhart's drug store. 50c and \$1.00. Trial bottle free.

MURDERER FETED BY SOCIETY FOLK

MRS. EMMA KAUFFMAN IS GUEST AT NEENAH

TORTURED GIRL TO DEATH

Passed Among Leaders of Life Unknown and Mingles With Best People of Two Cities

NEENAH, Wis., Sept. 19.—Mrs. Moses Kaufmann, who was convicted a few months ago in North Dakota of torturing a servant girl to death and released on bond pending appeal, was in Neenah and Menasha until recently. She had been there ever since her release last fall, but the fact became known only now, when it caused quite a great commotion in the twin cities, whose leading families have been entertaining the Kaufmanns unaware of their identity.

After Mrs. Kaufmann's release on \$50,000 bail, she disappeared with her husband and son and reports had it that they were going to Europe. The family came here and took quarters at Robert's summer resort, where they remained until the place was closed. Then they went to a Menasha hotel, where they occupied lodgings under the name of Kaufmann. So quietly did the members of the family deport themselves that they made friends readily and were entertained by several of the leading families in the two cities. Mrs. Kaufmann was under the care of a Neenah physician and received treatment for several months for nervous prostration.

Mrs. Kaufmann was sentenced to life imprisonment for killing her 16-year-old servant girl, Agnes Polreis, who, it was charged, was tortured to death. If a new trial is granted a number of Neenah and Menasha people have been notified by the attorneys for the defense that their testimony will be asked for, either in person or by deposition.

It is understood that at the new trial the defense will seek to prove that Mrs. Kaufmann was in a weak mental state as a result of nervous trouble at the time of the alleged murder of the Polreis girl and that she was insanely jealous of a daughter who had died. Miss Polreis was subject to epileptic fits and the defense will endeavor to show that the bruises on her body were brought about by falls sustained during a fit.

Although the identity of Mrs. Kaufmann was never suspected while she was here, there are many who met her who believe that the quiet little woman who fascinated everybody by her kindly manners must have been laboring under some great mental strain if she committed the crime of which she was charged and found guilty.

The Kaufmanns live at Sioux Falls. Moses Kaufmann is a brewer and is rated as a millionaire.

20,000 ATTEND FAIR AT CHIPPEWA FALLS

CHIPPEWA FALLS, Wis., Sept. 19.—About 20,000 people attended the afternoon and evening entertainment of the second day at the northern Wisconsin state fair yesterday. The crowds thus far have been the largest in the fair's history and the races, exhibits and other attractions are excellent.

The tuberculosis cattle demonstration by State Veterinary Roberts this forenoon drew a large crowd of farmers. In the floral parade this afternoon silver cups were awarded to M. S. Bailey, L. M. Newman, Miss Dot Hall, J. B. Kehl, Addison Hayes, Earl Barker, Mrs. Henry Powers and Miss Florence Smith.

The result of the races follows: 2:10 pace, pure \$500—Won by Creston, owned by J. M. Wray of Creston, Ia.; Little Payne, second; Oakley D. Best, third. Time, 2:13. 2:20 trot, purse \$500—Won by Edith Tell, owned by Charles Boynton of St. Paul; Dexter M., second; College Bell, third. Time, 2:20 1/4. 2:20 pace, purse \$500—Won by Lucky 13, owned by Jefferson, Wis.; parties; Bumblebee, second; Missouri Boy, third. Best time, 2:17 1/2.

HOTELKEEPERS MEET

ELKHART LAKE, Wis., Sept. 19.—(Special.)—Demonstrations, exhibits and elaborate luncheons marked the opening here today of the annual convention of the Wisconsin Hotel Keepers' association. The progress from the old tavern to the modern hotel was amply illustrated. Sessions are being held at Hotel Schwartz. Owing to the recent fire, the convention could not be held at the Beaumont hotel, Green Bay. F. G. Hall is president, and Herman Kleisch secretary. The program ends tomorrow night and meanwhile there will be bowling, bathing, boating, fishing and what not.

MORE STATE BANKS

MADISON, Wis., Sept. 19.—The increase in the number of state banks in Wisconsin this summer has been simply marvelous. In the three months ended Aug. 22 there were ten new banks established. Two days ago two more were incorporated, and today articles were filed for another new one and a charter issued to one which filed articles recently.

The new incorporation is the Farmers and Merchants' Bank of Cochran, Buffalo county. The capital

stock is \$10,000, and the incorporators are G. M. Rohrer, Gottfried Klein, Ferdinand Hanson, John B. Hofer, J. L. Rohrer, A. W. Hofer, A. E. Guettinger, Charles Huber, John Meltz and Franz Rohrer.

A charter was issued to the Farmers' State Bank of Norwalk. Frank Wartman is president.

STATE BRIEFS

KENOSHA—The Park Avenue Methodist Episcopal church has unanimously asked for the return of the Rev. W. W. Stevens as pastor of the church for another year. Mr. Stevens has been pastor of the church for six years.

KENOSHA—Mrs. Mary Hale Allen, widow of Nathan Allen and mother of Charles and Nathan Allen, directors of the Central Leather company, is critically ill at her home in Kenosha.

KENOSHA—The second serious storm of the week visited Kenosha late Tuesday night and Wednesday morning and as a result the streets of the city were flooded and basements in all parts of the city were filled with water. More than two and a half inches of rain fell during the twelve hours.

KENOSHA—The trial of George R. Skkes, the well known Milwaukee railway man, arrested on a charge of grand larceny in connection with the robbing of cars of the North-Western company, promises to be one of the hardest fought cases ever tried in Kenosha county.

RACINE—By the breaking of a small water pipe in the rear of the Hotel Racine, the skull of Earl Haslund, 10 years old, was fractured, he sustained internal injuries and was taken to St. Mary's hospital in a dying condition, and Roy Bauman, aged 11 years, was badly hurt. The boys were climbing on the pipe.

RACINE—Racine was visited by a severe electrical storm and cloudburst. Over 100 cellars in the aristocratic section of the city were flooded.

RACINE—On Aug. 22 last E. L. Aderhold, assistant dairy and food commissioner, with the aid of state inspectors and members of the local police force, made a raid upon the dairymen and milk peddlers of Racine county and secured forty samples of cream and milk. As a result, warrants have been issued for three men.

MADISON—Three hundred prominent citizens of Wisconsin who several years ago took out \$5,000 policies in the Conservative Life Insurance company of Los Angeles, Cal., on the understanding that they were to receive a considerable reduction in premiums for serving as members of an "advisory board" for the company, will not, under an opinion rendered by Attorney General Gilbert, be able to secure any such reduction or compensation of any kind.

MADISON—Fire caused by the enormous weight of 3,500 tons of coal is burning in the fuel vaults of the state university. As it is impossible to extinguish the fire with water, a large gang of workmen is removing the coal from the vaults.

MADISON—The attorney general has rendered an opinion to the effect that Assistant Attorney General A. C. Titus can lawfully be paid \$300 from the hunting license fund for compiling the game laws during his vacation.

BARABOO—W. C. Huddelson of Chicago, fireman on the Chicago and North-Western road, while leaning out of a cab window at North Freedom, was struck on the head by a mail crane and fatally injured.

WESTFIELD—At a special election held on Tuesday the question of raising the license of the saloons to \$500 was defeated by eighteen majority.

JANESVILLE, Wis.—Terry Sorrenson, a lineman of the Evansville Electric company, fell from a thirty foot pole in that city, and, aside from suffering a severe shock by grasping a live wire, was seriously injured internally. He came from Brooklyn.

DISCOVERS CURE FOR WEAK NERVES

Simple Prescription of Tropical Fruits That Cures Chronic Constipation and Brings Back Back Youthful Vitality. Anyone Can Mix the Remedy at Home.

The startling discovery has been made of a remarkable cure for chronic constipation, nervous debility, nerve exhaustion, insomnia, brainfag, kidney troubles, weak back, rheumatism, liver trouble and other diseases.

Its most important function is the perfect regulation of the bowels and the power and strength it gives to weakened nerves in every part of the body, building up wasted nerve tissue and stimulating and giving new life to every organ of the body, so that they can perform their duties correctly.

The following is the prescription, which any weak, suffering man or woman can mix at home:

Mix one ounce of Obifruit Compound Extract with seven ounces of port wine or unfermented grape juice. Of this mixture take a dessert-spoonful three or four times a day before meals and at bedtime.

This remedy has proven to be of remarkable efficacy and is absolutely harmless.

Obifruit Compound Extract, mentioned above, is made from tropical fruit extracts, which contain no alcohol, no narcotics, or mineral or animal matter whatever.

A week's taking of this tonic has been known to produce a complete change from extreme nervous weakness to vigor and strength. Almost every drug store carries these two ingredients, unfermented grape juice and the Obifruit Compound Extract. The latter is in fact the most important. From results it may be safe to say that it is the best remedy so far discovered for all nerve troubles and constipation, and every household should have a supply constantly on hand.

Saved by Good Food

Read a Doctor's words
about

Grape-Nuts

"A short time ago I was called to a patient who had been given up by his physician.

His stomach would not bear food, and consequently he got no nourishment and was slowly dying from exhaustion.

He was reduced to skin and bones. I immediately put him on Grape-Nuts food and Postum Food Coffee. He could keep both articles on his stomach and neither caused him any pain. He has been using both the food and the cereal coffee and has gained rapidly."

The reason a delicate stomach can take Grape-Nuts food is that it is predigested by natural means during its preparation, and even a small babe can handle it as it causes no heavy work by the stomach and digestive apparatus; on the contrary, being predigested, it is quickly assimilated into blood and tissue.

Grape-Nuts as well as Postum Food Coffee contains elements selected from the grains of the field that are of first importance to the human body in nourishing and rebuilding it.

PIANIST COMPOSER WELL KNOWN HERE

ODIN LOUIS RENNING WROTE
CORONATION HYMN

E.A. STAVRUM IS PALLBEARER

Son of Well Known Member of
Clothing Firm Goes to Milwaukee to Attend Obsequies

Odin Louis Renning, Norwegian-American pianist and composer, who wrote the coronation hymn for King Haakon of Norway, and died in Milwaukee Tuesday afternoon, bore a large acquaintance in La Crosse. He visited this city often, as a guest at the home of Thomas Stavrum, of Stavrum & Hulberg, clothiers. E. A. Stavrum, a son of Mr. Stavrum, will act as a pallbearer at the funeral tomorrow afternoon in Milwaukee.

E. A. Stavrum acted as manager for Mr. Renning in his various tours, and the great success of the composer is due, in a large measure, to the management by the La Crosse boy.

Mr. Renning was 27 years of age, and was the only survivor of a family of six children. His father, Odin Renning, was at one time the best known Norwegian in the city, serving a number of terms in the common council, and running twice for city comptroller. His son graduated from the East Division high school, and for some years studied music under the direction of the late Julius Klausner. He went to Germany a year ago to complete his musical education, and studied under some of the greatest artists in Berlin.

Mr. Renning returned to Milwaukee last spring, and commenced a tour of the northwest in company with Rolf Hommer, the Swedish tenor. The tour opened in Chicago, and included a sacred concert in Milwaukee at the Evangelical Lutheran church of the Ascension. Mr. Renning was planning another tour when he was attacked by his last illness. Mr. Renning composed a number of songs which found favor and is best known for the hymn which he composed in honor of the coronation of King Haakon of Norway. The hymn was not sung at the coronation, but was heard at some of the coronation festivities and was enthusiastically received. It was first heard at the banquet given by Norwegian citizens of the state at the Hotel Pfister on May 17, 1902, at which Lieut. Gov. Davidson and a number of other prominent Norwegians were present. The music for the banquet was arranged by Mr. Renning.

FAIR ENTRIES ARE GROWING EVERY DAY

Day by day the entries are swelling in the Inter-State Fair speed department and a large and fine list, which is expected to eclipse any previous program is expected to be put on the track here this season.

Up to the present time six classes have been filled with 30 horses and more are expected. The entries closed Tuesday evening at midnight, but any which bear that date are still accepted.

The secretary reports that Chipewa Falls has a fine fair and that among the entries which he secured for this fair there, are 15 carloads of stock, cattle, horses, swine, sheep and poultry, and five cars of shows.

HENRY FREEHOFF CLASS PRESIDENT

The advanced Sophomores of the La Crosse high school elected officers for the coming semester yesterday afternoon.

The officers elected were:
President—Henry Freehoff.
Vice President—Miss Prisca Slinger.
Secretary—Miss Helen Vance.
Treasurer—Carl Reichelt.

DELMAS MAY AGAIN DEFEND HARRY THAW

SAN FRANCISCO, Cal., Sept. 19.—D. M. Delmas went direct east to New York on the overland limited train today to consult with Harry K. Thaw, Evelyn Nesbit Thaw and Thaw's mother about the approaching trial of Thaw for the murder of Stanford White. He will discuss his becoming one of the trial lawyers for the defendant at the second trial. He was the leading trial lawyer in the first trial.

A Simple Prescription For Stomach Troubles

One That Can Be Mixed at Home.
Here is a simple prescription that will tone your stomach and put it in condition to digest your food:

Compound Tincture of Cinchona, one ounce; Prose Compound, one ounce; and Sherry Wine, half a pint; mix together and take one teaspoonful before meals and at bed time in a wine glass full of water.

This prescription can be put up by any druggist.

The Prose Compound in this prescription is a compound of digestive ferments and the best vegetable tonics known to medical science; they increase the secretions of the gastric juices and increase their digestive power.

We advise that if you are troubled with your stomach you get this prescription filled at your drug store and give it a trial.

FORMER PRESIDING ELDER IS NO MORE

REV. ISAAC B. RICHARDSON
DIES AT LUVERNE

HERE FROM 1866 TO 1870

Well Known Methodist Preacher Dies in Minnesota After an Eventful Career in Work.

The Rev. Isaac B. Richardson, presiding elder of the La Crosse district of the Methodist church for four years, from 1866 to 1870, and a Methodist preacher in this state for several years, died at Luverne, Minn., and the funeral was held last Tuesday at Luverne. The Rev. Richardson was the oldest minister in point of service in Minnesota.

Rev. Mr. Richardson was born Oct. 14, 1814, at Crowland, Canada. He entered upon the itinerant work of a Methodist preacher in Canada in 1845, and continued it in that country for twenty years during which time he was presiding elder of two districts and four times elected a member of the general conference.

He came to La Crosse in 1866, and was presiding elder of the La Crosse district for four years. He also was for sixteen years engaged in regular preaching in Wisconsin, during which time he was pastor of several churches. Following his work in Wisconsin, he spent fourteen years in church work in Tennessee and Alabama. He went to Luverne from New York about five years ago, and has since made his home there with his daughter, Mrs. C. E. McMillan.

TEACHERS TO MEET

BISHOP HAMILTON TO GIVE ADDRESS

La Crosse May Be Permanent Meeting Place

The annual convention of the West Wisconsin Teachers' association will be held in the new La Crosse high school on the 11th and 12th of October.

The program has not been entirely perfected but an address will be delivered the first evening of the meeting by Bishop Hamilton.

The scholars of the grade schools will sing in the afternoon and the high school chorus has been put on for the evening programs.

On account of its central location La Crosse may be chosen as the permanent place for the association to convene. The attendance this year is expected to be larger than heretofore and will no doubt be very successful.

REV. MOLLER ON FINANCE BOARD

If You Read This

It will be to learn that the leading medical writers and teachers of all the several schools of practice recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, "liver complaint," torpid liver, or biliousness, chronic bowel affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their results, as bronchitis, throat and lung disease (except consumption) accompanied with severe coughs. It is not so good for acute colds and croup, but for lingering, or chronic cases it is especially efficacious in producing perfect cures. It contains Black Cherry bark, Golden Seal root, Bloodroot, Stone root, Mandrake root and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholow, of Jefferson Med. College; Prof. Hays, of the Univ. of Pa.; Prof. Finley, of Chicago; M. D. of Bennett Med. College, Chicago; Prof. John King, M. D. of Cincinnati; Prof. John M. Scudder, M. D. of Cincinnati; Prof. Edwin M. Hale, M. D. of Hahnemann Med. College, Chicago; and scores of others equally eminent in their several schools of practice.

The "Golden Medical Discovery" is the only medicine put up for sale through druggists for the purpose of having any such professional endorsement—worth more than any number of ordinary testimonials. Open publicity of its formula is the best possible guaranty of its merits. A glance at this published formula will show that "Golden Medical Discovery" contains no poisons, harmful or habit-forming drugs and no alcohol—chemically pure, triple-refined glycerine being used instead. Glycerine is entirely objectionable and besides is a most useful agent in the cure of all stomach as well as bronchial, throat and lung affections. There is the highest medical authority for its use in all such cases. The "Discovery" is a concentrated glycerine extract of native medicinal roots and is safe and reliable. A booklet of extracts from eminent medical authorities, endorsing its ingredients mailed free on request. Address Dr. R. V. Pierce, Buffalo, N. Y.

ILLEGAL FISHERS FINED FIFTY DOLLARS

TWO FEEL STING OF THE NEW GAME AND FISH LAWS

FRANKWHITE REAL OFFENDER

Game Warden Charges He Has Repeated Violations, But Fine Is Same for Both.

Charles Dahl, 315 Cass street, and Frank White, 437 South Third street, two illegal fishermen, the latter the most persistent violator of the law in La Crosse county, according to Deputy Game Warden George L. Kingsley, felt the sting of the new game law penalty today, when they were fined \$50 and costs each, or 60 days in the county jail. This was the penalty inflicted for catching a bushel basket of various kinds of fish with a trammel net yesterday.

Persistence marked the work of Game Warden Kingsley. Night after night he had laid in wait for White at the foot of Cass street, and his efforts were rewarded last night, between 9 and 9:30 o'clock, when White and Dahl came ashore with a trammel net and the fish. The two were placed under arrest immediately, though Dahl is an innocent offender.

This morning each entered a plea of guilty to the charge, and the minimum penalty, \$50 and costs, \$52.16, or 60 days in the county jail, was imposed. District Attorney Bosshard, and Game Warden Kingsley asked for a heavier penalty for White, because of his previous misdemeanors. The two officials alleged that White netted the lagoon in Pettibone park one Sunday afternoon before a large crowd. Game Warden Kingsley said that he has received at least twenty-five complaints about the work of White, but never was able to catch the miscreant.

The men used a trammel net, setting the device across the outlet of a slough or pond, and scaring the fish into it. By means of a long pole, and a boot sole attached to the end, and rammed up and down, in the water, fish were scared from their accustomed haunts, and swam into the net and captivity. "I informed White that a trammel net is not allowed to be used," said Mr. Kingsley. "He asked me about it, and knows the law, because I informed him of it."

"He has violated the law continually, and the complaints against him number at least twenty-five. I have watched and watched, and finally landed him last night. His method is to secure a 'green horn' each time he goes out. Dahl ought not to receive as large a fine as White, but each ought to be given a stiff penalty."

Judge Brindley imposed the minimum. White will make an endeavor to raise the money, while it is probable Dahl will serve his sentence.

"What will my family live on while I am in jail, if I can't raise the money," inquired White, after sentence was passed.

FREEPORT SAYS PENNANT IS WON

Freeport evidently feels certain of winning the Wisconsin league flag this year, as indicated by the following which concludes an article on the postponement of yesterday's game, in the Record Herald:

"Freeport is content to rest, because even if it is prevented from playing any more games this season and Wausau wins all of its remaining five the latter team will still be defeated in the pennant race by 7 points."

However, the article does not go on to say what will happen if Freeport loses some, and Wausau wins.

WANTS FIGURES ON PLANT MAY YET LEAVE NORTH SIDE

(Continued from Page One.)

the contracts under which they operate and find out clearly their relations to the railway systems with which in one way and another they have connections.

Different Plan Used by R. R.

There is no doubt a great deal of rebating, of a sort difficult to detect, has been carried on through such lines as the interstate commerce commission is inquiring into. Under the guise of payment of charges for transportation over the private track, industrial track, terminals and switches, extensive drawbacks have been paid by the railroad systems. The inquiry will put into the commission's hands information that will make rebating under disguises of this fashion dangerous. While this is true, the inquiry was started to perfect the accounting system of the commission. Professor Adams wants to find out whether the reports of switching properties, terminal properties and the like should be the same as the reports of the railroads proper. They carry on business in a different way in many respects from the railroads proper and it may be necessary as the result of this inquiry to devise a special kind of reports for them. They have, for instance, no ton mileage, as a rule no knowledge of the contents of the cars they convey and in other ways conduct their business on a different basis from the average railway system. Further than this, it is thought possible this inquiry will develop information as to many of the small roads and it is possible that hereafter the commission will not require an exact detailed accounting from all of the small, inconsequential lines.

Knowledge of Terminals Necessary. The inquiry into switching and terminal properties will further have an indirect bearing on the subject of the valuation of these properties. It will afford the commission knowledge of all these properties and their relationships, which will be the foundation from which the commission may later, with additional authority probably from congress, go ahead and ascertain the physical valuations. It will serve as an inventory preliminary to the taking of valuations if the commission enters into the valuation business later on. The terminal and switching properties are becoming of such enormous value as big shipping centers increase in size that if physical valuation of the railroads of the country is ever undertaken a full knowledge of such properties will be essential.

For months, the accounting division of the commission has been getting information on the subject of intercorporate relationships among the railroads themselves and among the railroads and other corporations. This inquiry has developed a lot of extremely valuable and interesting information and has unmasked much that has been hidden as to the ramifications of big interests in control of the great railroad systems of the country. This information will probably be published this fall as a bulletin.

The reports for the first month under the new accounting system, those for July, were duly sent in to the accounting division and have been compiled. They are being analyzed by Professor Adams. No public announcement will be made about them until they have been gone over carefully and probably none will be made until the reports for August are in and compiled.

Some Objections. Professor Adams said today no protests had come to him from railway president concerning the accounting system adopted by the commission. It was rumored that at a recent meeting of leading railway presidents in New York, features of the system worked out by Professor Adams were objected to. A large number of inquiries are being received about the "renewals" account and the "depreciation" account and a bulletin is being sent out in elucidation of them. In another bulletin, a large number of cases dealing with operating expenses and other classifications are set forth for comment and answer by expert railway accountants. The queries and answers will be made the subject of a report by a committee to the Association of American Railway Accounting Officers.

FUNDAL OF LORENZ LEIS TOMORROW

The funeral of Lorenz Leis, who died yesterday afternoon, will be held tomorrow morning from the residence at 8:30 o'clock and from the cathedral at 9 o'clock. Rev. Sluyter officiating and interment will take place at the Catholic cemetery. The Eighth Ward Aid society, of which the deceased was a prominent member, will attend in a body and the employees of the N. Hackner Alter company, fellow workers of Mr. Leis will also attend.

Joe Fowler, one of the players on the La Crosse High school football team, was severely injured while at practice at the ball park Tuesday evening.

Mr. Fowler was running with the ball and was tackled by one of the other members of the team and in some manner, wrenched his ankle.

He will be laid up for some time, but will no doubt enter the game later in the season.

VOTE-BERGER DIRECTORS ARE STILL UNDECIDED

MEETING TOMORROW NIGHT

Cost of Building Material has Advanced so Far in Past Years New Plant Would Be Costly.

On account of the fact that the cost of building is at present high, the directors of the Vote-Berger company may not use the plans which have been drawn for the new north side plant, but instead may purchase the Threshing machine factory building near the Gund brewery. The site for the new plant was to have been at the corner of Rose and Gillette streets. Plans have already been drawn and an approximate estimate of the cost of erecting the plant has been placed at about \$250,000. Upon investigation it has been found that the plant will cost somewhat more and the directors have therefore postponed a decision on the acceptance of the plans at each meeting, pending an investigation of the threshing machine plant, which they can secure much cheaper than a new plant would cost them.

Directors Meet Tomorrow.

The directors of the plant will hold another meeting tomorrow evening and they may reach a final decision. Henry Gund, one of the directors of the company, who returned last evening from Rock Island, where he has been on business, could say nothing definite in regard to the location of the factory.

"Both sites have been contemplated, however," he said.

It is understood that the North La Crosse Progressive league will take up the matter at their next meeting and will take steps to promote the retention of the previous site for the new factory on the north side. Most of the employees of the plant reside on the north side and they all realize what a loss the change to the threshing machine site would be.

BONAPARTE PROVES

(Continued from Page One.)

ering vocabulary of trust invectives. A shrill laugh, giving full expression to the dimples that form his chin, accentuating the appearance of keen Bonaparte's enjoyment as he twists the verbal rapier that has already reached a vital spot completes a picture that has often been viewed by his newspaper callers since a few months ago when he was prodded by the president for his slothfulness in leading the chase against bad corporations.

At that moment was sown the seeds of discord between the president and his legal adviser, which soon became a case of out-Heroding. Consternation was created even among his cabinet associates. Some feared the impression would become prevalent that the president had at last decided to "run amuck." When Bonaparte hit upon what he considered a happy solution of the trust busting problem and asked the courts to appoint referees for the tobacco and powder trust cases the dissatisfaction in the official family finally found expression before the president.

The conviction grew that the attorney general had mistaken the government's plan of corporation sterilization to mean an annihilation. He was held responsible in a great measure for the slump in stocks and the money market flurry which annoyed Secretary Cortelyou. His outspoken belief that the only cure-all for corporate sinfulness was to put some wealthy men behind the bars hurt the feelings of many influential people.

Moody was different. He took his work seriously. He prided himself upon having the judicial mind. And he thought there was such a thing as going too far. He was in serious earnest in trying to bust trusts, but the thought of putting any of the big men in jail was distasteful. He believed a dissolved trust worth any number of new suits.

That is why he granted immunity to the officials of the Chicago and Alton in return for their evidence against the Standard Oil company.

For some unknown reason Moody left no record of the immunity agreement at the department of justice. This proved very trying and greatly embarrassing to Bonaparte. His predecessor's neglect may change history. At all events it is almost certain to satisfy the Chicago and Alton people, for while the attorney general first urged prosecution and afterwards accepted the immunity agreement, he is now all tangled up over the failure of District Attorney Sims at Chicago to read to the court his letter defining the views of the department.

THREATENED TO KILL "ABDUCTOR"

MRS. LINN TOLD PEOPLE SHE WOULD SLAY CALE

SO JURY FAILS TO AGREE

That He Was Guilty of Assault When He Struck the Enraged Woman; Denies Knowledge of Girl

Henrietta Linn, complainant in an assault and battery action against Fred Cale, former merchant policeman, admitted on the witness stand yesterday that she had threatened to kill Cale, and had informed persons, who would in turn tell Cale, the defendant admitted striking Mrs. Linn, though he claimed self-defense.

So conflicting was the testimony, and so many were the excuses offered for the assault, that the jury was unable to agree upon a verdict, after deliberations of an hour. The jury was composed of Joseph Goodland, Adam Forscher, W. E. Barber, William Helfach and Charles Smith.

Mrs. Linn was the first witness. With dramatic gestures, waving her arms and refusals to testify, except upon advice of her attorney, she told of the assault in front of the Hotel Bronson on Aug. 31, and the circumstances leading to it. Frank Crandall, a night watchman, who saw the fracas, added his testimony.

A. M. Ivey, leader of the City Mission, swore he saw Mrs. Linn hunting for her daughter, shortly before she was struck by Cale. Mrs. Hannah Lartley and Dr. J. A. Rowles testified to the severities of the injuries.

On the stand Cale testified to the threats Mrs. Linn had made, her assault upon him, when he was ordered to produce "Queenie" Linn, and his striking Mrs. Linn in self defense. Cale said he had not secreted "Queenie" and did not know where she was.

Fred Emery, night clerk at the Hotel Bronson, and George Happler, day clerk, testified that Mrs. Linn had threatened to kill Cale.

Mrs. I. Ningfang, in charge of the Hotel Boycott, said Queenie had brought a grip to the hotel and asked that it be placed in Cale's room, but that she had refused to do so.

The jury took the case at 4 o'clock and returned with a disagreement one hour later.

SEVERE STORM SWEEPS VICINITY

(Continued from Page One.)

near Red Wing was washed out and wires are all down. No communication has been received from Minneapolis since the storm.

On the Preston branch near Reno, the track is covered with two feet of water and trains were delayed until this morning, when the water receded and trains were again resumed.

Breeze Turns Into Gale.

In La Crosse early this morning the wind reached a velocity of thirty-two miles an hour, tore through the upper branches of trees and ripped off a few shingles. The wind storm was confined between 1:30 and 2:45 o'clock, but the damage was slight.

Throughout the residence section of the city, branches were found strewn upon the streets, but the trunks withstood the force of the wind well. On the causeway several shade trees were minus branches this morning, as one result of the velocity of the wind.

Previous to 1:30 o'clock the wind was blowing at a rate of four miles an hour, but veered from northeast to east about this time, and between 2 and 2:10 o'clock a speed of between thirty and thirty-two miles an hour was attained. After that the wind died down to between twenty and twenty-five miles, and resumed its normal velocity about 2:45 o'clock. The bluffs east of the city acted as a protection, otherwise the city might have suffered severe damage.

Squirrels Are Drowned.

During the wind storm scores of squirrels were drowned, while crossing the Mississippi from Minnesota to Wisconsin.

Deputy Game Warden George L. Kingsley was at Homer, Minn., during the storm, and thought the boat would not reach shore. He says the waves were from eight to ten feet in height.

"On the way down river today I found several squirrels stretched out dead in the water," said Mr. Kingsley. "The waves swept over them, and as soon as water reached their tails they drowned, or were carried in under. The little fellows probably started across the river just previous to the strong wind."

S.S.S. HEALS OLD SORES

An old sore or ulcer is only a symptom, an outlet for the impurities and poisons which are in the blood, and as long as this vital fluid remains in this impure, contaminated state the place will never heal. The application of salves, washes, powders, etc., may cause the spot to scab over, but a fresh outpouring of diseased matter from the blood starts it again, and thus it goes on, gradually growing worse and slowly affecting the entire health of the sufferer. There are many ways in which the blood becomes contaminated and poisoned. A long spell of sickness breeds disease germs in the system, the failure of the eliminative members to remove the refuse and waste matter of the body, the excessive use of mineral medicines in certain diseases, all infected by a sore that refuses to heal. Persons with inherited blood taint are very apt to be afflicted with sores and ulcers. The taint may lie dormant during young, vigorous life, but when middle age is reached or passed and the natural energies begin to grow weaker, the tissues in some weak point break down and a chronic sore is formed and kept open by the constant drainage of impure matter from the blood. If the cause is not removed the sore will continue to grow worse by eating deeper into the flesh, festering, discharging, and slowly undermining the constitution. S. S. S. heals old sores by going down to the very bottom of the trouble, driving out the impurities and building up the entire circulation. When S. S. S. has removed the cause the blood becomes rich and healthy, the sore begins to heal, new flesh is formed, and soon the place is cured. Do not depend on external applications, which do not reach the blood, but begin the use of S. S. S. and remove of the cause, and then the sore must heal. TOLAND'S BUSINESS SCHOOL

WHAT IT IS. The great business training school in the United States. WHAT IT DOES. It prepares young men and women for business life. It secures them first-class positions afterward. WHY IT IS BEST. Because it has the best teachers that money can secure, good methods and is managed and conducted by business men. WHAT PROOF DOES IT OFFER OF THESE THINGS. Five thousand young men and women holding first-class positions; one hundred students sent to positions in ninety days. We have more students in positions than all the other schools in the Northwest combined; endorsements from the following men and women of national reputation: Senator La Follette of Wisconsin, Governor Johnson of Minnesota, Congressman Esch, Ex-Gov. Van Sant of Minnesota, Bishop Schwabach, La Crosse Diocese, Simon P. Shope, Ex-Chief Justice Supreme Court of Illinois, Cyrus Northrup, Pres. University of Minnesota, Rev. E. R. Miller, Grand Forks, N. D., Milo B. Price, Owatonna, Minn., Pres. Pillsbury Academy, Edward E. Hale, Grover Cleveland, John Wanamaker, Chauncey M. Depew, Susan B. Anthony, John H. Vincent, New York City, Wyckoff, Seamens & Benedict, New York City, David S. Jordan, Stanford University, First National Bank, Winona, Minn., Security Savings Bank, State Bank and First National Bank, La Crosse and the Trade & Labor Council, Winona, Minn.

Send for our catalogue containing full information and portraits of those who are earning from one thousand to seven thousand dollars per year. We can do the same for you. Make up your mind to invest just one year in making yourself a better man or woman. Give yourself an opportunity to rise above your present condition, in fact, give yourself just one year of opportunity. Remember no young man or woman ever made a mistake spending time and money for an education.

Students may enter any time.

A TORNADO OF BALLOTS

Swept into the Tribune Office the past three days of The Tribune's \$3500 Contest. They came from every quarter of the country.

AGGREGATE TOTAL WILL OVER-REACH QUARTER-OF-A-MILLION MARK

Following is a List of Candidates and Number of Votes Credited to Each up to Five O'Clock Wednesday, September 18th.

NEXT ANNOUNCEMENT MONDAY, SEPTEMBER 23rd.

STANDING OF CANDIDATES UP TO NOON WEDNES., SEPT. 18th

Interesting Tug of War Is Unabated.

MANY NEW ENTRIES TODAY

Still Chance for Newcomers to Win Handsome Prizes

On this page will be found the list of contestants as they stood at 12 o'clock yesterday. It will be noticed that hundreds of changes have taken place since the last count, and doubtless before many more counts those who are interested will be surprised at the enthusiasm with which the contestants keep up the race.

There have been contestants and contests in La Crosse and vicinity before, but none have ever started off with the dash and enthusiasm accorded The Tribune \$3,500 contest. Candidates have entered the field of their own will and are bringing in orders by the wholesale. Much interest in the good natured tug of war is already aroused and before another week has elapsed the enthusiasm will have reached fever heat.

Never before have brand new automobiles been offered young women of this vicinity for so little effort. The Buick offered by The Tribune is twenty-two horse power, and built like a watch. There are no intricate parts to get out of order. A child can run it with an hour's practice.

Besides the Buick automobile and Haines piano there are diamond rings, gold watches and business college scholarships to be given away. Some one is going to win these prizes, and those who will be successful are the young women who begin to solicit votes from their friends and relatives without delay.

The nominations have not closed yet, by any means, and any young woman of good moral character and who is a white resident of La Crosse or vicinity, may enter the race any time up to the very last day. Those who get into the contest at the start have the best chance of winning.

There are two ways of getting votes in this contest. First, by clipping the coupons from The Tribune, which, when cut out, name spelled in and brought or sent to the Contest Department of The Tribune, will count as one vote. These coupons must be sent before the expiration of the date printed on the bottom of each one. Second, by securing subscriptions for The Tribune votes are allowed on all paid-in-advance subscriptions (old or new) in accordance with the vote schedule. The best and quickest way of securing votes is of course by means of getting subscriptions, as a new yearly order brings up a candidate's vote total 2,400 votes at one step.

Several candidates in the race are getting along splendidly, and others could do likewise if they would seek friends and acquaintances and get them to subscribe for the daily paper and clip the coupons from each issue of The Tribune. It is not too late to begin work in the contest by any means. The race is now only in its second week, and many more weeks remain before the contest closes. The first is always the closest in anything, and those who get to work today—NOW—will have the best chance of winning the prize they most desire.

Get All The Votes You Can The Last Few Days of This Week

So you can lead your district next Monday.

NORTH SIDE NEWS

NORTH SIDE MAN INVENTS A RULER

MANY FIRMS SEEK TO MAKE ARTICLE FOR MARKET

CAN MEASURE ALL CURVES

With New "Crooked" Ruler Many of the Complicated Drafting Instruments Can Be Done Away

George M. Healey, 1512 George street, has just received papers granting him a patent on a rule which he expects will revolutionize much of the ruling system now used by architects, draftsmen, students and lithographers.

He entered a model of his rule at the patent office in February, but they have been so busy that the papers were not granted him until yesterday. City Attorney John H. Doherty has had charge of securing the patent rights.

With this rule the person using it can make any desired curve, or measure any curve. It is in fact a "crooked" ruler. Many of the forms now used by draftsmen will be done away with, as this rule can be adjusted to a limitless number of curves. It is made of several pieces which slide upon a small spring. Mr. Healey has already had numerous requests from firms who have seen his patent in the national patent review, for the manufacture of his patent. It can be made to sell for 10 cents.

REV. TURNER GOES TO MERRILL CHURCH

Rev. W. J. Turner of the North Presbyterian church has announced that he has accepted a call from the Presbyterian congregation at Merrill, Wis., and will leave for his new pulpit early in October.

Rev. Turner has been pastor of the North Presbyterian church for the past four and one-half years and has formed a large circle of friends, who, with his congregation, will regret very much to see him go. The exact reason for his resignation is not known. His successor has not yet been appointed.

PRESBYTERIANS TO MEET IN M. E.

The North Presbyterian Christian Endeavor society will entertain the local union in the Caledonia street Methodist church Friday evening, as the interior of the Presbyterian church not being completed.

INSPECTOR LOST IN PICNIC GROUNDS

DULUTH, Minn., Sept. 19.—William Langan, 27 years old, employed as inspector by the Duluth health department, has disappeared under circumstances that have aroused the anxiety of his friends. He attended a picnic at Hunter's park last Sunday and during the afternoon wandered off into the woods and has not been seen since. A search is being made for him.

ELKADER HAS REAL DRY FAIR

ELKADER, Ia., Sept. 19.—That one extreme will follow another is exemplified at Elkader this week. Last year at the Elkader fair the "lid" was off. The saloons have been compelled to comply with the mulct liquor laws of the state and the provision prohibiting saloons within one-half mile of an agricultural fair compels every saloon to close at Elkader this week. The council also refused to allow any games of chance in the city.

EASTERN STAR PAYS HONOR TO ITS LEADER

MILWAUKEE, Wis., Sept. 19.—(Special.)—Many Milwaukee members of the Eastern Star are joining with members from out in the state today, to attend the reception tonight in Racine, for Mrs. Ella Washburn, head of the order everywhere. This is to be the largest event in Masonic history at Racine.

TWENTY-FIRST HOLDS ANNUAL REUNION

APPLETON, Wis., Sept. 19.—(Special.)—The reunion of the Twenty-first Wisconsin regiment began here today. Eulogies will be delivered in large numbers as the rank and file is rapidly decreasing through death.

SAME OLD LEAGUE IS PLANNED AGAIN

MARINETTE, Wis., Sept. 19.—Marinette fans plan to organize the local team and make it part of the Wisconsin-Michigan league. The cities that will be asked to join the new association are Fond du Lac, Oshkosh, Appleton, Green Bay, Marinette, Menominee and Escanaba.

MINOR GAMES.

The "Young Americans" will play the Chippewa Saturday morning. The Young Americans are going for the championship next season. Manager Reiner of the Young Americans says he will fix up the team in good form with Burke on first and Frisch on short.

CARNIVAL CROWDS ON NORTH SIDE

SHOW PROVES POPULAR WITH LA CROSSE PEOPLE

ALL SHOWS ARE EXCELLENT

And Absence of Rowdiness, Confetti and Customary Bores Brings Out the Women and Children

Last evening the streets of the North side were thronged with one of the largest carnival crowds that has ever been seen on the North side.

The people started to gather soon after supper and carload after carload of south side people were steadily streaming into the North side.

Herman Weeden's famous trained lion show that is given as a free attraction, is still the center of interest and creates more comment than any other attraction on the ground.

Holden's trained animal show is perhaps one of the best and newest to La Crosse people. A number of cattle, hogs and other animals are carried for this show and are really good.

The members of the carnival committee expect a large crowd this evening.

One of the pleasing features of the North side carnival is the absence of a certain element of rowdiness that usually prevails at affairs of this kind. The crowd is well managed and good order is preserved. The absence of canes and confetti is also appreciated as is shown by the crowds of women and children which throng the streets.

NORTH SIDE COUPLE WEDDED

Fred Larkin, 413 Caledonia street, and Miss Mabel Schultze, daughter of Mr. and Mrs. E. W. Schultze, were quietly married in the parsonage of St. James church at 8 o'clock Tuesday evening.

The ceremony was performed by the Rev. Father Ambrose Murphy.

The couple will take up their residence in the Hellm home at the corner of George and Hill streets after a short wedding trip. The groom is a well known young man on the North side, being employed by the Milwaukee road. The bride is also well known among the young people of the North side.

NORTH SIDE BRIEFS

Mr. and Mrs. E. M. Smith of upper Prospect street have gone to Milwaukee where they will visit for some time with relatives and friends.

William Koch who has been employed in the Pearl Button works at Davenport as a cutter for some time, is home for a visit with relatives and friends.

The members of the W. C. T. U. met yesterday afternoon at the home of Mrs. DeSautelle on Avon street. Refreshments were served and all enjoyed the afternoon very much.

TROUSERS CATCH AND SAVE OWNER

MARQUETTE, Mich., Sept. 19.—Because he wore an exceptionally stout pair of trousers, Supervisor P. Caver of Mathias township, Alger county, escaped serious if not fatal injury, while his less fortunate companion suffered hurts which resulted in his death.

With James Green, twenty-eight years old, a carpenter living at Elfe Lake, lower Michigan, Caver was engaged in repairing the roof of his house at Winters. The scaffolding suddenly collapsed, and the men fell with the wreckage. Green struck heavily on the ground and aside from two serious fractures sustain-

ed internal injuries that caused his death within a few hours.

Cayers escape bordered on the miraculous. His fall was arrested by his trousers, catching on a large nail. The cloth was strong, and the supervisor hung suspended until rescued from his unpleasant and perilous predicament by his wife, who effected his rescue by means of a ladder.

PAYS \$1,000 FINE FOR BLIND PIGGING

STORM LAKE, Ia., Sept. 19.—Hans Peterson of Newell was fined \$1,000 and costs in the district court by Judge Coxle for selling liquor illegally. This is his fourth similar offense.

AUTO IS DITCHED; HE LEAVES IT

GRANITE FALLS, Minn., Sept. 19.—Two weeks ago a stranger arrived in Clarkfield at a late hour with an automobile and a bicycle. He remained all night and left early the next morning, going west. He went but a short distance when he ran the machine into a ditch, disabling it. He then rode away on his wheel and has not been seen in those parts since. The machine still lies in the ditch. It is thought he may have been a bank robber in flight.

GOOD PIANOS

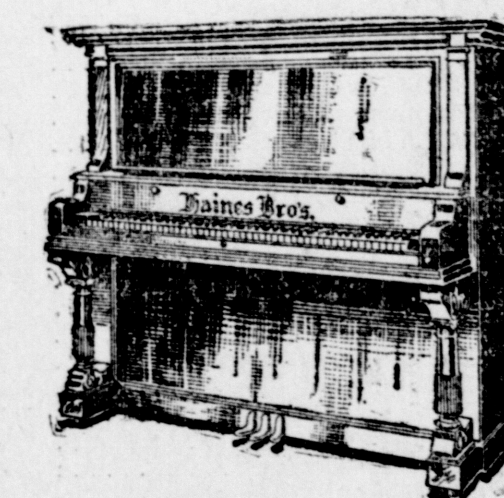

How they have built up and maintained my business.

The immediate profit on a sale is not the principal consideration. These are the main questions: How is that piano going to please my customer? Will it be a good advertisement for me? Will it help create more business? Every piano I sell has an influence for or against me. I can't afford to handle an instrument that will reflect upon my stock, my methods or my judgment.

A Good Piano is a Standing Recommendation for Me

My patrons and friends judge me by the value I give, and it is simply business policy for me to sell pianos that call forth favorable opinions. Twenty years' experience has given me ability to do this. Twenty years or square dealing have given others confidence in my ability.

If you are thinking of getting a piano or anything in music—think of me.

This \$400.00 Haines Bros. Piano is one of the Tribune's Capital Prizes.

MINNESOTA AND THE NORTHWEST

PROBE TWO GOPHER MURDER MYSTERIES

GRAND JURY TO PASS UPON SEVERE CHARGES

ONE COLD BLOODED AFFAIR

Indictments Probably Will Be Returned at Bemidji Against Pair—Other Cases Are Up

BEMIDJI, Minn., Sept. 19.—The grand jury, which will convene this week, will take up two murder cases. One of the cases is that of Peter Mathiason, who is bound over on the charge of murder in the first degree for the alleged killing of John Johanson at Gull Lake, near Tenstrike, last February.

Mathiason was arrested in the west after some clever work by Deputy Sheriff John Bailey and County Attorney Henry Funkley. The murder is alleged to have been a cold-blooded, premeditated crime. Mathiason, since being captured, it is alleged, has confessed to having committed the murder. What his plea will be if indicted by the grand jury is not known.

The other murder charge which will be considered by the grand jury is that against W. S. Munn, who, it is alleged, shot and killed August Franklin at Spooner early this summer. Munn has claimed self-defense as justification of killing Franklin, and if he is indicted, his defense probably will be conducted along that line.

The jury will consider also the case of Jennie Anderson, charged with obtaining money in false person. Mrs. Anderson, it is claimed, obtained a check for \$2,000 belonging to another Jennie Anderson, money being the premium of the policy held by Mr. Anderson as a member of the A. O. U. W.

The other cases and the charges which are up for consideration are as follows: State vs. Albert Belke, forgery; State vs. Ole Torgenson, assault in the second degree; State vs. Charles Peterson, burglary; State vs. J. J. Carter, grand larceny.

The fall term of district court convened yesterday. Judge McClenahan of Brainerd presiding. The calendar for the term shows that at the present time there are sixty-six civil and six criminal cases that will be considered at this term. The list includes seventeen personal property tax cases, also a number of cases continued over from the last term of court.

The action of the Minneapolis, Red Lake & Manitoba Railway company against about sixty citizens of Bemidji, growing out of the alleged right-of-way guarantee, is placed under one title. A number of the signers settled, but there are still many cases which will come up for trial and if they are taken up separately before a jury the term will be long drawn.

Outside of the railroad cases there is nothing on the civil calendar of any special importance.

MEET AT ST. PETER

BUTTER MEN TO CONVEKE THERE

Gov. Johnson to Speak at Convention

ST. PETER, Minn., 19.—This city will entertain the Minnesota State Butter and Cheesemakers' association when its members hold their annual state convention next month.

During the state fair officers of the association received invitations from a number of cities, among them St. Cloud, Owatonna and St. Peter. No selection was made at that time, but James Sorenson of Maple Plain, G. E. Lindahl of Milaca and E. P. Greeley of Alden, president, vice president and secretary of the association, met here yesterday and decided to accept the invitation presented by the St. Peter Commercial club.

The dates of the convention are Oct. 30 and 31 and Nov. 1, and the meeting is expected to be one of the most important ever held by the organization. Upward of 300 delegates will attend, and the buttermakers will ask Gov. Johnson to deliver one of the addresses.

The officers believe that there will be an unusually large number of entries in the butter scoring contest this year, as they have appropriated \$1,200, the largest sum ever set aside for the purpose, to be paid in premiums.

ECHO CLUB HAS A FINAL DANCE

The Echo Dancing club gave the last of their series of dances at their hall on Rose street last evening. A large crowd attended the affair.

The Touch That Heals. Is the touch of the huckleberry Arnica Salve. It's the happy combination of Arnica flowers and healing balsams ever compounded. No matter how old the sore or ulcer is, this Salve will cure it. For burns, scalds, cuts, wounds or piles, it has no equal. Guaranteed by O. T. Erhart, druggist, 25c.

FARMER FLIES MUSE; RAILROAD PAYS DUES

POEM BRINGS DAMAGES WHEN WORDS FAIL

TRAIN HAD KILLED A HOG

Officials Turned Deaf Ear to Entreaties, But Sonnet Brings Out Cash—Hill Is Happy

RAVENNA, Neb., Sept. 19.—John Mickie, a prosperous and versatile farmer five miles north of Ravenna, made a claim against the Burlington railroad several months ago for \$12, which he estimates to have been the worth of a hog killed by a train on that road. He has tried all sorts of ways to secure a settlement from the railroad company and only succeeded by writing a poem, in which he set forth the merits of his case. This poetic communication reads as follows:

Claim Agent, B. & M. R. R., Dear Sir:
Right here I will try
My feeble muse to fly
And tell you now
You have killed my sow.

Now you sure must pay
So don't try to make delay;
This case is very pressing.
And if you pay without delay
I'll give Jim Hill my blessing.

Good Mr. Sane
Has time and again
Wrote you about this trouble,
And if you don't pay right away
I'll claim the damage was double.

And now, dear sir,
Please don't defer
But give this matter your attention,
And if you pay me right away
Your name in my prayers I'll mention.

This claim was reported by Mr. Sane, Section Boss, who buried the body, also by me. Respectfully,
JOHN MICKIE.

Farmer Mickie's claim was dug out of a pigeon-hole and its merits gone into. Section Boss Sane was asked to make a report on the loss, and Mickie has just received the company's check for \$12. He is the envy of every farmer in the neighborhood of Ravenna, and is very proud of the distinction which has come to him through his meritorious poetical writings.

NORTHWEST BRIEFS

SIoux CITY, Ia.—"A romance" of the sawdust and spangles was revealed in the district court in the divorce case of Maud West against William C. West. Mrs. West told the court that her husband and her sister, whose name is McDowell, were acrobats in a circus and "worked" together. Mrs. West alleges that they fell in love with each other and disappeared, taking her child. She has seen nothing of them since that time. Judge Hutchinson granted her a divorce and the custody of the child.

ST. PETER, Minn.—Supervisors of Belgrade township have appropriated \$8,000 for the construction of a new wagon road down the bluff on the west bank of the Minnesota river into the village of North Mankato.

WADENA, Minn.—A negro was found dead in the closet at the Northern Pacific depot in this city, yesterday. In his pocket was a card bearing the name of John Simms, Monarch club, Kansas City. The man either died of fits or starvation and was buried in the potter's field.

DULUTH, Minn.—In spite of unfavorable weather the members of the Minnesota National Guard association enjoyed a trip down the lake on the gunboat Gopher, the vessel used by the Duluth naval reserves. They returned last evening, and this morning are being entertained by a drive around Duluth's beautiful boulevard. This afternoon a business meeting will be held, and tonight the visitors will be guests at a theater party.

SLEEPY EYE, Minn.—Rev. A. H. Bondo has arrived from Marcus, Ia., to take up his work as pastor of the Danish Lutheran church. Sleepy Eye Musicians have organized a band with J. M. Beck as instructor. L. P. Jensen is president.

COMFREY, Minn.—Rev. P. R. Upton, pastor of the Comfrey and Selma Congregational churches, has resigned.

BRainerd, Minn.—The Brainerd Brewing company is having plans prepared for a fireproof brew house three stories high, which will double the capacity of the plant.

ROCK LAKE, N. D.—Rock Lake yesterday celebrated the anniversary of its founding two years ago. Senator Hansbrough delivered the principal address.

BLUE EARTH, Minn.—Anton Hopp, who was lodged in jail here on the charge of shooting at a man named Jacobs, has gone crazy.

BURLINGTON, Ia.—George Robinson, who was shot by Officer Weiss, while he was attempting to crack a safe, died last night.

FERGUS FALLS, Minn.—Marvin Ertzgaard, a young man of this city, was shot through the arm while hunting yesterday. He drew a loaded gun toward him from a buggy.

HELEN BLAIR IS COMING NORTHWARD

NEW FEATURE IN THE LINE OF RIVER OUTINGS

WEEK'S CRUISE ON THE RIVER

Famous Boat Which Has Not Been in This Vicinity for Some Time Enroute North

The steamer Helen Blair will be seen in these waters some time next week, when she will be enroute from Davenport to St. Paul with a party of excursionists on board. It is expected that the boat will make a stop here to give the excursionists an opportunity of taking in the sights of La Crosse.

The Muscatine News-Tribune in speaking of the trip says: "Captain Walter A. Blair is arranging for a fine trip for a limited number of tri-city people, the first to take advantage of the offer being the lucky ones. The plan is for nothing less than an autumn cruise up the Mississippi river on the steamer Helen Blair. The trip will be made the last week in September, the boat leaving Rock Island at 3 o'clock Saturday afternoon, Sept. 21, and returning Saturday morning, Sept. 28.

"Captain Blair feels that few people have seen the upper part of the Mississippi, the most beautiful part, in the fall of the year, the most beautiful season. He is arranging this trip as a special personally conducted tour, with no attempt to make fast time or carry freight, but merely for the pleasure of the passengers.

"The number of passengers is limited to fifty, thus avoiding crowding and assuring service at the first table for all. All will be able to sleep comfortably, since there will be plenty of berths, and no stops late at night. The trip will also be arranged so that no interesting or especially beautiful spots will be passed during the night. Stops will be made at the principal ports at suitable hours. An opportunity to inspect closely points not reached by the railroad or regular packets will also be offered.

"The trip is purely for sight-seeing and all the passengers are to have special opportunity to see the scenery."

NEW BANK AT COCHRANE, WIS.

COCHRANE, Wis., Sept. 19.—(Special.)—The bank which was organized at this place Saturday evening will be erected in the Landsman block facing Fifth street. It is to be called "The Farmers and Merchants Bank of Cochrane." The necessary ground for the bank has been purchased at the annual meeting which was held Monday evening. It is to be built of solid brick and is to be fire proof. It is expected to be in operation within sixty days with A. W. Hofer as cashier.

Mrs. F. Yaeger of Waumandee, Wis., is visiting with friends and relatives at Alma.

Mr. A. G. Ochsner and son and sister Emma of Chicago spent the latter part of last week with friends and relatives at Waumandee.

Miss Tillie Fischer of Buffalo City left Saturday morning for Marshland, Wis., where she is engaged to teach this winter.

Mr. Frank Desmond accompanied by Mr. Miller of Alma made a flying trip to La Crosse Monday.

Miss Mabel Schlossstein spent Sunday visiting at Alma.

OTTENS TRIED TO SLUG THE SHERIFF

When Ernest Ottens, son of Mrs. Wilhelmina Ottens, 1003 Island street, left the Jefferson county jail to serve three years at Waupun for burglary, the county jail at Jefferson, Wis., was depopulated. Ottens was the last prisoner, and for the first time in history the jail is empty.

Ottens made an attempt to slug Sheriff Bulvingkel, while in jail. He had filled a piece of garden hose with salt, making a good "jimmy," but the sheriff discovered the weapon in time to prevent Ottens using it.

and J. A. Cloon of this city were robbed early today. The burglars only secured \$26 in all, Engles being the heaviest loser. Entrance was gained through the back doors. The officers have a clue, but at the present time no arrests have been made.

BRainerd, Minn.—Men are surveying a line between the shaft near Rabbit Lake, which is being sunk by the Brown-Rogers Ore company, and Cedar lake, on the Northern Pacific. It is also reported that a spur is being surveyed to the Pickands-Mather shaft, near Loerch. Those in a position to know predict that ore will be shipped from the Cuyuna range next season. The Brown-Rogers company is erecting a thirty-room boarding house at the shaft, and will, it is said, put in a store there.

WADENA, Minn.—A stranger giving the name of Getzel hired a team at Estbrock's livery barn, agreeing to return Saturday evening. When he did not appear an investigation was started and the team was found at Staples, where one horse had been sold to Liverman McFarland for \$85. Mr. McFarland only advanced \$10 for the horse, which sum he is out. Getzel has not been found, but officers are on his track. The other horse was left in a Staples barn.

Perhaps the reason a woman is continually looking in a mirror is because she wants to see herself as others see her.

PREDICTS WAR IN PACIFIC TERRITORY

**CAPTAIN JUDSON BELIEVES A
CLASH WILL COME**

WENT THROUGH JAPAN'S WAR

**With Russia and Says if the Czar
Had Kept His Ships at Home
There Would Have Been None**

WASHINGTON, D. C., Sept. 19.—The United States army is in bad shape. The navy is even worse. War clouds are hovering thick and fast. The possession of the Philippines is bad, the Panama canal an embarrassment, and the Monroe doctrine positively a peril.

So declares Capt. William V. Judson of the corps of engineers of the United States army.

Capt. Judson is one of the officers who were sent to Manchuria to report on the observations of the operations of the Russian and Japanese armies. The scenes of carnage which he witnessed appear to have had a depressing influence upon him.

He has just made a report to the war department. It is more than a report. It is a lugubrious commentary on the awful hopelessness of anything.

Foresees Shameful War.

Capt. Judson declares that only by adopting certain measures for the improvement of the American navy, which he outlines, can the United States be saved from a "shameful and disastrous war."

Incidentally the captain (corps of engineers) takes a fall out of military attaches. He declares they are "less dangerous only than war correspondence," and favors the policy of "satiating public curiosity" about a nation's wars by handing out type-written statements from "some official channel."

Speaking further of military attaches, he says: "Many of them will be ill disposed for one reason or another. Some will try to make records in getting out information, and some even may try covertly to furnish information to the press."

If Russia Had Only Known.

Then Capt. Judson of the engineers explains that Russia would not have had to fight Japan if the czar had kept his fleet at home instead of sending it three quarters of the way around the world to be "shot up" by the mikado's gunners.

He then incorporates in his report the following observation on the wisdom of a nation scattering its naval forces.

"This is, to be sure, a naval question, but strategy is much the same on the land and on the sea and one is forced to wonder why we maintain several battleships on the Asiatic

station, subject to destruction in case of sudden war."

Gloomy Hints at War.

It is apparent that Capt. Judson believes that Germany and Japan have designs upon the United States. He has a chapter on this topic, and, although he does not mention either nation by name, he indicates them both beyond reasonable doubt.

Capt. Judson's scheme for avoiding national humiliation at the hands of an enemy is the organization of a big army reserve. He has the officers by the ears by slighting reference, to the utility of the navy. For instance, he says: "Despite the great importance we justly attribute to the navy, in the end it must be admitted that its principal functions are to defend or attack the lines of communication of armies where the same lead across the seas. In the last resort, to prevent the final catastrophe of war, it is after all the army that is required."

**FAIRBANKS' AUTO
STICKS IN THE MUD**

CLEVELAND, O., Sept. 19.—Vice President Fairbanks and former Governor Myron T. Herrick arrived in this city late tonight on a farmer's wagon, having had a strenuous trip from Canton in Mr. Herrick's automobile and having encountered two storms on the trip, begun just after the adjournment of the meeting of the McKinley memorial trustees.

The first storm was just out of Canton, and after that the trip was made without incident till within six miles of Cleveland, when the automobile stuck fast in the mud, following a second storm.

A farmer proffered the use of his wagon, which the former governor and his guest, the vice president, accepted. They arrived at the Herrick home somewhat fatigued and badly drenched.

WOULD DUN JOHN D.

OYSTER BAY, Sept. 19.—Declaring that John D. Rockefeller owes him \$10,000,000 for services in connection with a murder mystery in St. Paul, a man calling himself Orlando Toland invaded the precincts of Sagamore Hill last night and sought an interview with President Roosevelt. He said he wanted the president to order Rockefeller to pay over the money. Secret service men finally put him aboard a train bound for New York.

**PETTIBONE TOO ILL
TO BE IN COURT**

BOISE, Idaho, Sept. 19.—George A. Pettibone was unable to appear in the district court yesterday to have his case set for trial. An affidavit of the attending physician states that Pettibone is suffering from ulcer of the bladder, which, unless checked soon, will prove fatal. It says an operation may be necessary, but fears the patient will be unable to survive it.

**WHITEWATER MAN
HIT BY A TRAIN**

WHITEWATER, Wis., Sept. 19.—H. J. Koelzer, an employee at the Chicago, Milwaukee & St. Paul depot of this city, was run down by the eastbound passenger train cutting his left foot off above the ankle and injuring his right foot.

Among the odd purchases made by Queen Alexandra at the American booth at a recent fete at Mansion house, London, for the benefit of crippled children, was a tin parrot in a wire cage and a real ham.

**Arnold Krayer and Frank
Engelhart Admit Guilt**

Two orphan boys, Arnold Krayer, aged 19 years, Dubuque, Ia., whose brother is employed in the office of the city treasurer, and Frank Engelhart, aged 17 years, a nephew of J. Bolzer, 1404 South Fourteenth street, were arrested Tuesday at Stoddard, Wis., by the town marshal on a warrant charging burglary of the home of Henry Strache, a Mormon coulee road farmer. The pair was brought to the city today by Sheriff J. Burns.

Yesterday pleas of guilty were entered before Judge Brindley, and the two bound over to circuit court for trial. During the noon hour, two more pleas of guilty were entered and the boys sentenced to the reformatory at Green Bay, Wis., by Judge Fruit.

"I am an orphan, my father died ten years ago, and my mother was killed five years ago by a Great Western train," said Krayer. "My brother is employed in the treasurer's office at Dubuque. I have no home and no place to go."

"I admit I took a watch from the house, but that's all I took. He took the rest." He referred to Engelhart. "I haven't any folks, either," said Engelhart. "My uncle, Mr. Bolzer, lives at 1410 South Fourteenth street, and I live with him. I just work around, because I haven't a home. I didn't take anything, but Krayer took a watch."

The burglary occurred at the Strache home on Monday. Yesterday the pair stopped at Stoddard, Wis., and remained there all the day. Sheriff Burns telephoned the marshal there to be on the lookout for the two, and they were arrested. The burglary was reported to the sheriff yesterday.

**4-DAY ROMANCE
FAILS; SUICIDES**

WEBSTER CITY, Ia., Sept. 19.—Because Miss Martha Quindahl refused to marry him after a courtship of four days, Ross Hendricks, a former well-known Webster City theatrical and circus man, drank fifty grains of strychnine at Estherville, and rushing into the street, fell dead in the road. Hendricks had been a boon companion of Carl Pressley, another well-known theatrical man, who shot himself in the City park here two weeks ago after burning a roll of bills amounting to \$2,500.

MAD MOTHER MURDERS SONS

OTTAWA, Ont., Sept. 19.—Word has just reached here that at Midale, Saskatchewan, Mrs. John Anderson, a farmer's wife, took her three sons, aged eighteen months, six years and eight years, respectively, to a potato patch and killed them. She knocked all three on the head with a hammer and then cut the bodies in a horrible manner.

She also made a desperate attempt to kill her eleven-year-old daughter by putting a rope around the girl's neck, but she managed to escape, being aided by a dog that attacked the maddened mother.

The mother, who became insane through a religious mania, shows no remorse for what she has done and says it was a blood sacrifice.

**MOTHER DROWNS
SELF AND GIRL**

LOS ANGELES, Sept. 19.—Driven insane by brooding over her ill health and the protracted absence of her husband in Iowa, Mrs. Anna Baker, thirty-one years old, left the home of her brother-in-law last night accompanied by her seven-year-old daughter, and proceeded to the shores of Johnson lake in the eastern part of the city, where she hurled both herself and daughter into the deep waters of the lake.

The woman left the following note: "I want to save my dear little darling from this world. You will find us in Johnson lake."

**BISHOP IN THE
ANANIAS CLUB**

OYSTER BAY, Sept. 19.—Because of the widespread publicity given the statement of Bishop Berry of Detroit that either President Roosevelt or Secretary Loeb and not Mr. Fairbanks was responsible for the cocktails served at the luncheon tendered them by the vice president at Indianapolis, Secretary Loeb has issued the following formal statement in denial:

"The statement is too absurd to be given any credence. Neither the president nor his secretary either directly or indirectly ordered anything of any kind at the lunch in question or at any other lunch where they were guests."

**LOSES LEG ON
STOLEN RIDE**

ELKADER, Ia., Sept. 19.—While three young boys were returning from a baseball game west of Monona they attempted to steal a ride on a freight train. In the attempt to get on the caboose Ed Wickler, aged 14 years, was thrown under the wheels and his right leg was cut off below the knee.

Health in the Canal Zone.
The high wages paid make it a mighty temptation to our young artisans to join the force of skilled workmen needed to construct the Panama Canal. WASTE STUFF ONLY TO MAKE ALCOHOL

**FARMERS WARNED THAT THERE
IS NO PROFIT OTHERWISE**

FRENCH FARMERS PROVE IT

**Good Material Cannot Be Made Into
Denatured Alcohol on Small
Scale Without Loss**

Washington Bureau of
The Chicago Tribune.
WASHINGTON, D. C., Sept. 19.
(By J. C. Welliver.)

In view of the fact that the amendments to the denatured alcohol law, calculated to encourage distillation by farmers and persons with small capital, have just gone into effect, a report just made to the state department by Consul-General R. P. Skinner of Marseilles is likely to be of wide interest.

Mr. Skinner says that the French farmer has had a long experience as a distiller of alcohol and, true to his national instinct, has discovered sources of profit in material which, in other countries would go to waste.

Importance of the Still.

The French farmer's experience has taught him to confine his labors to damaged crops or residue and to send his best potatoes, wine and grain to market for what they will command. The importance of the still as an agricultural accessory is especially striking in the south of France, where the chief crop, and often the only crop is that of wine. But even in the south, where for several years the price of wine has been ruinously low, the farmer has every advantage in selling his wine if it be sound and good.

From this, Mr. Skinner concludes, that it is highly desirable that American farmers, now considering this subject as a practical question, proceed under no illusion that first-class crops can be converted into alcohol in small domestic stills on a profitable basis. In France, by utilizing defective materials an income

La Crosse Theatre, Saturday and Matinee and Night.

is obtained from products that could be employed otherwise only as fertilizers. The farmer-distiller in France operates with small devices which he can procure in great variety at from \$30 to \$250 each. Indeed there is scarcely any limit as to price.

Mr. Skinner says there are two classes of small distillers in France—those who work up their own wine and cider, grape, apple or pear cake, and traveling distillers, who go from place to place, working up raw material, either at an agreed price or for their own account. As a rule, in the immediate vicinity of Marseilles, farmers employ these itinerant distillers, who come with their portable stills and make alcohol for from 5 to 10 cents a liter—1.05 quarts—according to the degree, usually about 70. The product must be rectified and brought up to 86 degrees, the actual price of which is \$9.26 per 100 liters—26.41 gallons.

A New Source of Revenue.

Consul General Skinner describes the various distilling processes and says all of them are within easy reach of men of ordinary intelligence and offer new sources of revenue to the farmer, particularly in the fruit growing regions, where thousands of bushels of wine and cider residue are returned to the soil or burned and where inferior apples are at times not even gathered for lack of a remunerative market. He adds:

"If American manufacturers will provide first-class stills of moderate price and encourage farmers to make use of them, the latter will have a new rainy-day occupation that is both interesting and moderately profitable."

**MANIAC CAUGHT
ABOARD LIMITED**

MINOT, N. D., Sept. 15.—Wounded and footsore from a tramp of three weeks and convinced that he could no longer elude his pursuers, Nick Berk, the maniac who leaped through the window of the Soo Spokane Limited when it was going sixty miles an hour at Columbus, N. D., turned up last week on the same train after a terrible struggle between the maniac and a North Dakota banker. The crazy man finally was subdued and placed in jail, awaiting word from his relatives, who reside in Wisconsin, and who offered \$75 for his capture.

Berk was being taken home by his sister, when without a moment's warning he went to the rear end of the train, and after saying "they are after me," shot through the window, and, fleet as a deer, struck across the prairie.

**BOY BLOWS SELF
UP; WAS SCOLDED**

MOOSE LAKE, Minn., Sept. 19.—While Anton Sulista, a farmer who lives about twelve miles west of Moose Lake, was returning home with his family from a Polish wedding, a boy about 13 years old, who was driving, it seems, did something that displeased his father, whereupon the parent punished the boy, made him get out of the wagon and told him he would get more when he got home. The boy went to a neighbor and borrowed some dynamite, saying they wanted to blow out some stumps. He went a short distance, dropped the dynamite and threw himself on it in time to be torn to pieces.
